Accès:		
Approche: (traduction alternative) Shuttle approx. 15 min.		
Tour: (traduction alternative) A slightly incised canyon consisting of a series of waterfalls between 3 and 30 m high, separated by short steps. It is very sunny and offers a beautiful view of the Rhone plain. The water level is usually quite low and it is a good alternative if the canyons in the region are too full. At the beginning of the season, however, there may still be residual firn from avalanches. Due to its equipment, it is very suitable for practicing canyoning techniques.

Made as a practice canyon, you have a lot of rope traverses to set up where you don't necessarily need them. (traduction alternative)
