Matériel:

Résumé: (traduction alternative)
Or also known as Peña Calma is located in the Cresta de Balcez, is a unique place, vertical, vertiginous, with great views and given its verticality dry. It has two big rappels of 90 and 70m split and we will finish in the Isuala so we will return by the access to the Oscuros.
Descent only for experienced people!

Hydrologie:

Accès: (traduction alternative)
On the highway from Huesca to Barbastro, take exit 77 towards Abiego/Alquézar. Arriving at Abiego turn towards Bierge on the A1227.
On the HU-341 road, before Almunias, we turn off on a very prominent track (next to the Barranco Fondo signpost), pass the Balced viewpoint and continue to the esplanade (where the signpost is located).

Approche: (traduction alternative)
On the track already on foot, we pass the chain, and in the sharp bend to the left, there is a path indicated as "Oscuros del Balcés" to the right that climbs up to the crest of Balcés. When we reach the Cheto girdle where the path descends to the Oscuros, we will continue up the ridge following the milestones parallel to the cliffs. Some great views in this area will liven up the climb. After a first col we will continue climbing up to the second one where we will find a large milestone and next to it a rock with two spits.

Tour: (traduction alternative)
A first short rappel to access the channel that leads to the first vertical, 35m that leave us right at the 60m rappel and then an exposed ledge to make a 30m rappel (you can do 90m at once). Here we will have the second vertical also divided this time in 15 + 65. From here the rappels soften to reach the glera and from here to the river.

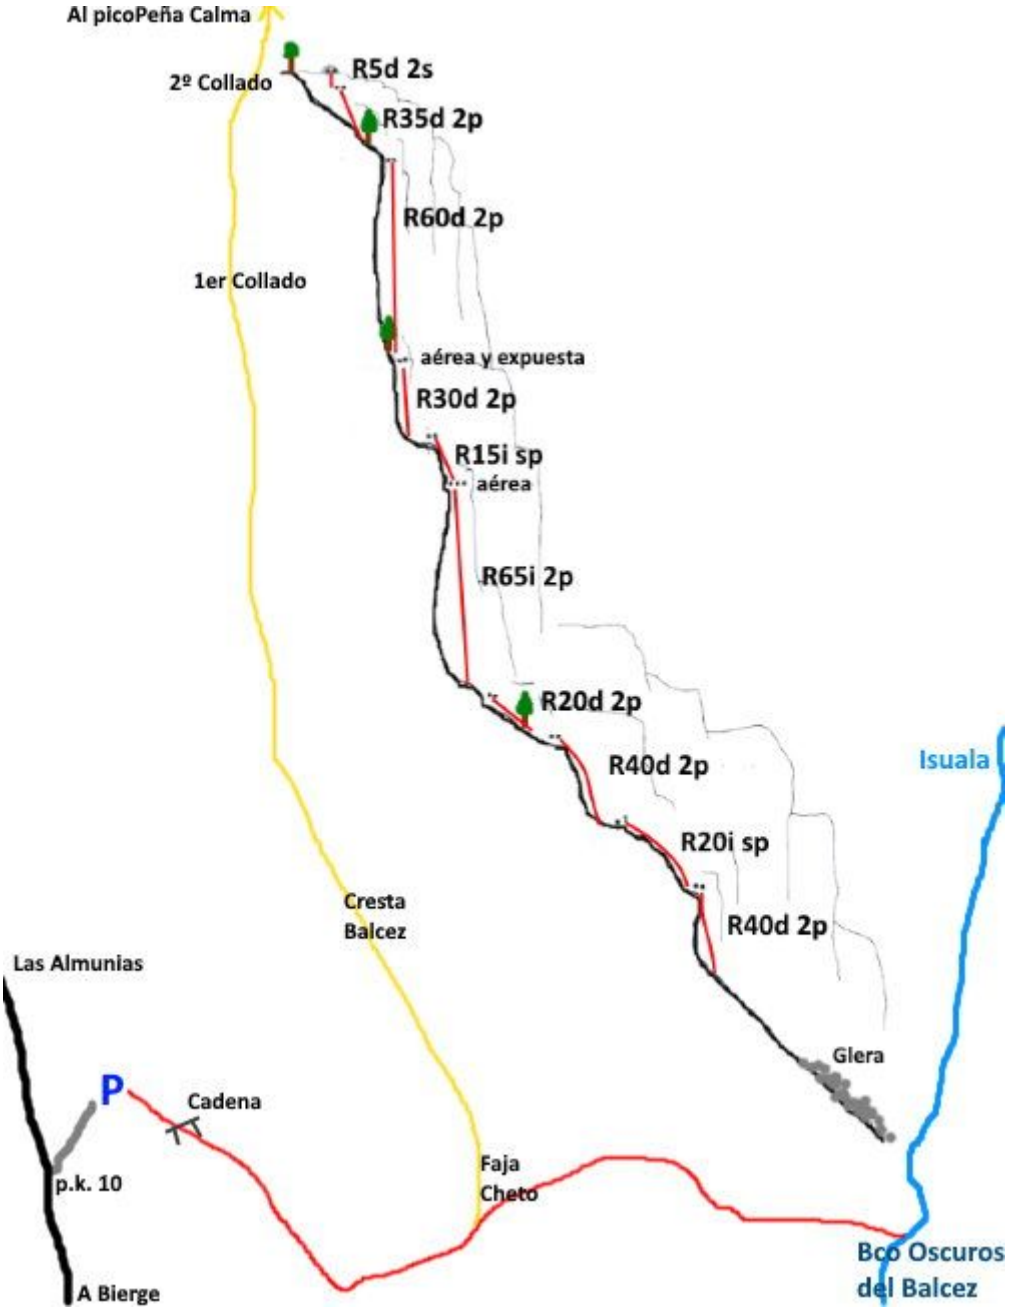

Retour: (traduction alternative)
Continue along the river up to the access to the Oscuros (on the orographic right) through which we will return.
