Good flow. All anchors are in place and in very good condition. Cool and interesting sections. After the last rappels (red rock), about 150 m downstream, you can easily exit the canyon on the right side via a path (forest road). The path leads to the road, from which you can quickly reach the parking lot. (traduction alternative)

Les ancrages sont neufs, merci ça fait plaisir. Comme déjà dis, il y a beaucoup d'arbres me ils ne sont pas trop embêtant pour progresser. Nous avons trouvé une sortie très confortable en rive droite à travers les paturages, à confirmer si c'est une bonne idée ou pas. Nous avons également trouvé une corde -> message privé pour la récupérer

We did a short tour at night, in the middle you can downclimb a new C5 through a tunnel. We jumped in the red rock at the exit, but it's not particularly deep. (traduction alternative)

The exit after the red rocks on the left is fine, at the top you can park in the bends. You can even balance over a tree trunk. (traduction alternative)

Everything OK. Some trees but not problematic for the progression. Some garbage (rest of cars ?). We exit directly on the left after the last waterfall, when the rocks are becoming red. Steep and not comfortable. Seems that it is better 100m after.

Great if it has enough water. (traduction alternative)

Canyon after it had fallen into oblivion. Not very long but nice for the area. Good to combine with another canyon in the valley. (traduction alternative)
