**Résumé:** (traduction alternative)
Steep and varied canyon in the Raccolana Valley whose last two high waterfalls are visible from the road.

**Hydrologie:**

**Accès:** (traduction alternative)
A23 until Pontebba exit. Go down the Canal Valley to Chiusaforte. Before reaching the village, turn left into the Raccolana Valley. Follow the road until the junction for Patocco. Here, continue for about 800m in the direction of Sella Nevea until you reach a small parking area directly under the waterfalls marked "Cascata Rio Repepeit".

**Approche:** (traduction alternative)
Descend briefly to the bridge over the Raccolana gorge and descend on the other side over the Rio Repepeit and into the gravel bed of the Raccolana. Follow the gravel bed upstream until a rock face juts into the gravel bed from the right. Immediately before the rock face, climb steeply to the right onto the embankment and from here follow an old path diagonally uphill to the right. The path is heavily overgrown, but its route is still clearly recognizable. There are clear steps in rocky passages. Once you have crossed the Rio Repepeit above the high waterfalls, keep left and ascend in many hairpin bends (do not follow the tracks crossing to the right) to reach a long and in places exposed crossing high above the canyon. Follow the path until you meet the Rio Repepeit again below a beautiful waterfall.

Very hard to find the first part of the aproach. Second part after passing water was easier to find. The entry to the canyon is at 820 meters Anchor points were in good shape, but take some spare equipment just in case.
