Matériel:
Cordes: 2x90m

Résumé: (traduction alternative)
Open rappel canyon with many emergency exits.
Carabiners are missing or hard to find.

Hydrologie:

Accès: (traduction alternative)
The best approach is by gondola. The road is rather narrow, and it can be a hassle if local residents are coming the other way in the morning. It’s better to take the gondola.

Approche: (traduction alternative)
From the gondola station, walk past the restaurant toward Dundel. Continue along the road on the other side of the stream until the road turns. Turn in there.

Tour: (traduction alternative)
This is a challenging route because you have to downclimb a lot of slippery rock or use improvised anchors or trees.
The pitons (8 mm) are often far from the main water source and hidden by vegetation.

Retour: (traduction alternative)
After the last waterfall (Insta spot alert), get off the trail to the right toward the road and walk back to the parking lot.

All the stations are in great shape. The rappelling routes are very slippery right now. (traduction alternative)
