Matériel:
Cordes: 2x 60m

Résumé: (traduction alternative)
A short route, but one that features a series of beautiful steep sections. As always in Val Cerusa, the surroundings are extremely charming, with magnificent access and an enjoyable descent among the small lakes of Cerusa.

Hydrologie: (traduction alternative)
You can get to safety before reaching any obstacle.

Low water levels in summer

March–July.

Accès: (traduction alternative)
Exit the highway at the Genova Voltri exit. At the edge of town, on the right: Fabricche, Fiorino. Drive up the valley, past an old factory. Turn left before Fiorino. Parking lot at the cemetery

Approche: (traduction alternative)
From the cemetery, follow the trail marked with a red diamond, which leads over the old stone bridge to Case Soggi. Alternatively, you can follow the paved road (which is blocked by a gate) to the hamlet. Follow the road, which curves in a wide arc toward the houses (elevation 450 m). Behind the houses, enter (be sure to close the gate behind you!) a fenced pasture and cross it until you reach a second gate. Take the marked trail on the right, which ascends northward at mid-elevation, skirting the watershed between the Rio Secco valley and Val Cerusa. Shortly after reaching an elevation of 500 m, turn left and pass a trail on your left that continues across the plain. Continue along the path for a few more minutes until you reach the base of a rock face. From here, the path continues at roughly half-height, crossing three ridges until you reach the stream. The sparse streams flowing down from the steep rocks all look somewhat similar: To avoid getting lost, keep in mind that 3 minutes past the Rio Battilana, you'll reach the "Case Spravè" mountain hut, a ruin in the middle of a beautiful meadow.

Tour: (traduction alternative)
A short route, but one that features a series of beautiful steep sections. The surroundings, as always in Val Cerusa, are extremely charming, with magnificent access and an enjoyable descent among the small lakes of Cerusa.

Descent: 3 meager, poorly shaped holds that are waterlogged in the spring.

Retour: (traduction alternative)
Once you reach the confluence with the Rio Gardonea, follow the trail on the right bank to reach the confluence with the Rio delle Gave. From here, the trail crosses to the left bank and continues (apart from a short downhill part) at mid-slope until it rejoins the trail taken on the way there; along the way, you'll pass several farmhouses.
