Since other streams in BGL were too full, we headed to Taxaklamm (thanks @JoeyCIA for the water level info). It's a relatively short gorge that you can get through in about 1.5 hours, even with multiple jumps. All the belay stations are equipped with chain anchors. Fixed ropes are all made of steel cable. Super secure thanks to all the metal. All the jumps and slides were doable. 1-2 pools, though some were only 2 m deep. Better than expected, so we went straight for a second run thanks to the minimal, short access📖 (traduction alternative)

A little more water after the rain. Everything is great. Watch out for cut bushes in the lower area. Something is falling in every day at the moment because the top has been cut. Otherwise everything is ok. (traduction alternative)

Automatisch importiert von Descente-Canyon.com für Canyon Taxabach Very nice short canyon. Ideal for example for winter, if you want to try cold canyon -> It's short enough for you to enjoy it without taking any risks. A fun canyon for beginners in the summer. looks nice from above. The wooden bridge is closed but you can enter the stream a bit further down the road.

Everything is a mountain pass. Good water level, all jumps possible. Stands OK! Be quiet on the exit, as the local residents are annoyed by the noise. (traduction alternative)

Pretty good value for a short walk in! No topic because it would be soo confusing with all the fixed options!?
