Matériel:

Résumé: (traduction alternative)
Mountain torrent, almost always with water, except in summer that can dry out in the initial part. If we previously check the facilities we could use it for initiation.
Environment with lush vegetation, like the rest of the valley, with a somewhat long but very pleasant approach and with plenty of shade.

Hydrologie:

Accès: (traduction alternative)
We will take the C-17 to Ripoll, there we will take the C-26 and then the N-260 towards Sant Joan de les Abadesses, where a little more than a kilometer past the town we will take the C-38 to Camprodon.
Once in Camprodon, turn left at the traffic circle to Setcases and Vilallonga de Ter, on the GIV5264. Arriving at Setcases, next to the entrance traffic circle, we can park, there is a parking lot on the left.

Approche: (traduction alternative)
Accesses bcos Solans, Pastissol and Socarrats
Already equipped we will go to the village, entering the main street (Carrer Villalonga) and just when it narrows we have on the left the carrer de la Font. We get in here to take the path to Tregurà, we will find it with many marks, until crossing the torrent of Pastuira (Clot dels Solans), soon comes a path on the right that goes up the mountainside (the Tregurá goes more or less horizontal), the marks are green at first and then become colored again. At first the trail zig-zags up through a fairly closed forest, and then heads more gently south around the mountain, in search of the Cabanyes d'en Rufi. When arriving at the ruins of the cabins we will be attentive to the marks to follow a little more and later to throw us to the left to the riverbed.

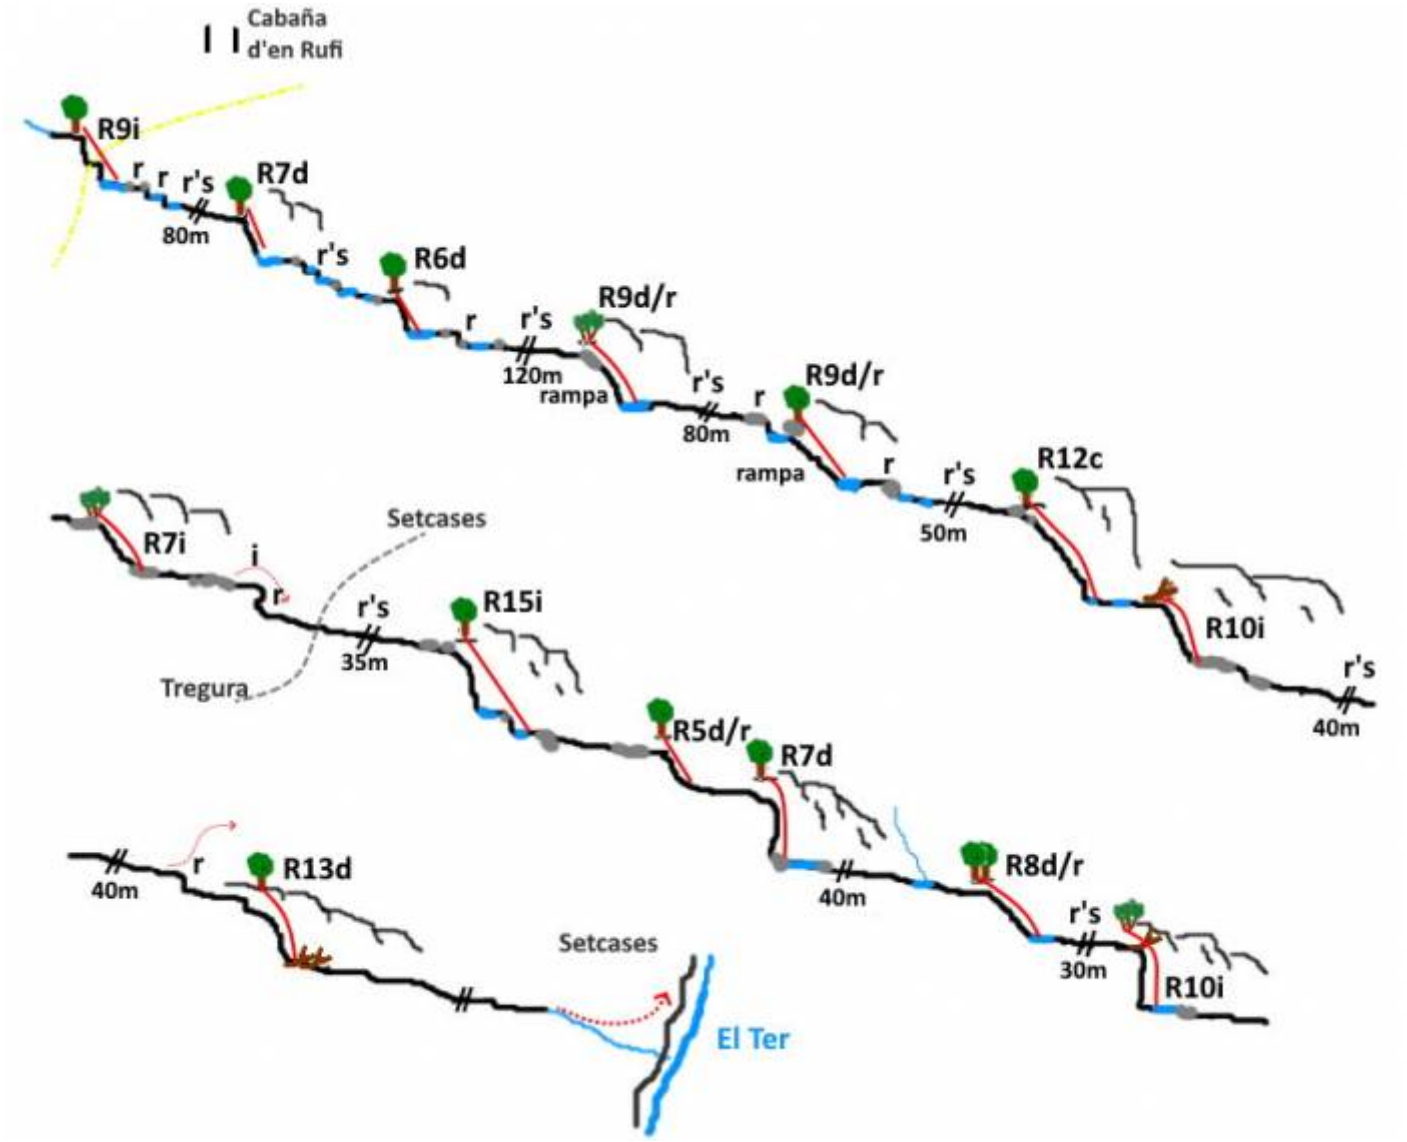

Tour: (traduction alternative)
See review

Retour: (traduction alternative)
At the end of the descent, and just before reaching the Ter, we will find a path that runs parallel to the river, by which we will go up to Setcases.
