Spécialités:
Barrage,

Matériel:
Cordes: 1x20m+1x25m

Résumé: (traduction alternative)
Except for the more attractive final section relatively open forest canyon

Hydrologie:

Accès: (traduction alternative)
Leave the Inntal freeway A 12 (Kustein - Innsbruck) at the exit Vomp and follow the L 389 southeastwards across the Inn to Pill. Across the federal road 171 on the Schloßbichl in the direction of Pillberg. In the first left-hand bend we drive straight on along the orographic right bank of the Pillbach up to the garbage collection point. There park the lower car at a suitable place.\n With the second car back on the Schloßbichel and right up the L 53 in the direction of Pillberg. After 1 km the road makes a rightward haipin bend, after another 800 m we turn right again onto Pillbergstraße. Another 500 m further on we turn right onto Steinwandweg in the direction of Müllau. About 1 km after this turn we come to a meadow enclosed by woods. Here, where a field path branches off to the right at a sharp angle, we park the second car.

Approche: (traduction alternative)
On the dirt road to bridge over the Pillbach, on the left bank about 100 m downhill to the slide brake - entry.

Tour: (traduction alternative)
After the optional first rappel on the boulder brake, we alternate between running sections, pools, places to downclimb and rappels again. After about 1.5 hours we come to a wooden bridge on iron girders. This is where the more attractive vertical final section begins.
Caution: In the upper reaches, there is a water drainage with a small reservoir.

Retour: (traduction alternative)
After the last rappel, go out to the right on a path and later go down to the car on a forest path.

Coordonnées:
Départ du Canyon 47.3110 11.6989
Fin du Canyon 47.3169 11.6862
Parking à l'entrée 47.3099 11.7026
Parking à la sortie 47.3203 11.6841

Climbed this route on July 24, 2026. Anchor points are present but need to be reinforced. Proceed with caution through the overhangs! The Flying Fox had come loose at the exit, so we made a temporary repair using pitons. (traduction alternative)

Due to rockfall in the first third quite a climb. No more anchors. 2nd part quite ok, very slippery (traduction alternative)
