Résumé: (traduction alternative)
Spectacular and vertical canyon that is regulated (ask for permission in the Natural Park of Cadi Moixerò). Without water except for heavy rains is a crack in the wall to save 150m of unevenness.
Regulated access: https://www.elbergueda.cat/es/la-aventura/barranquismo.htm
Permission must be requested at the park Tel.: 938 244 151 email: pncadimoixero@gencat.cat

Accès: (traduction alternative)
We will be located in Saldes, for them between Berga and Puigcerdà, just before reaching Guardiola de Bergueda, after leaving the tunnel we have the detour to the left by the B400 to Saldes and Vallcebre.
Before reaching Saldes, just before crossing the bridge we have the detour to the right to Gresolet on a track. We get in here and follow the signs to the Sanctuary.
If we have two cars, we leave the return car in the parking lot of the sanctuary.
We continue along the track towards the Coll de Bauma, if we only have one car we will park here.
If we have access car we will turn left onto the track and climb about two kilometers and park.

Approche: (traduction alternative)
Bcos Olla del Mel and Paller
With a car we walk up the track the 2kms that we would have done by car and we will see a watercourse with milestones that tell us where to go down. Arriving at the riverbed we follow it until the cut.

Tour: (traduction alternative)
Dizzying descent, with no time to rest, in which we will link rappels to save the 150m of slope of this cut.

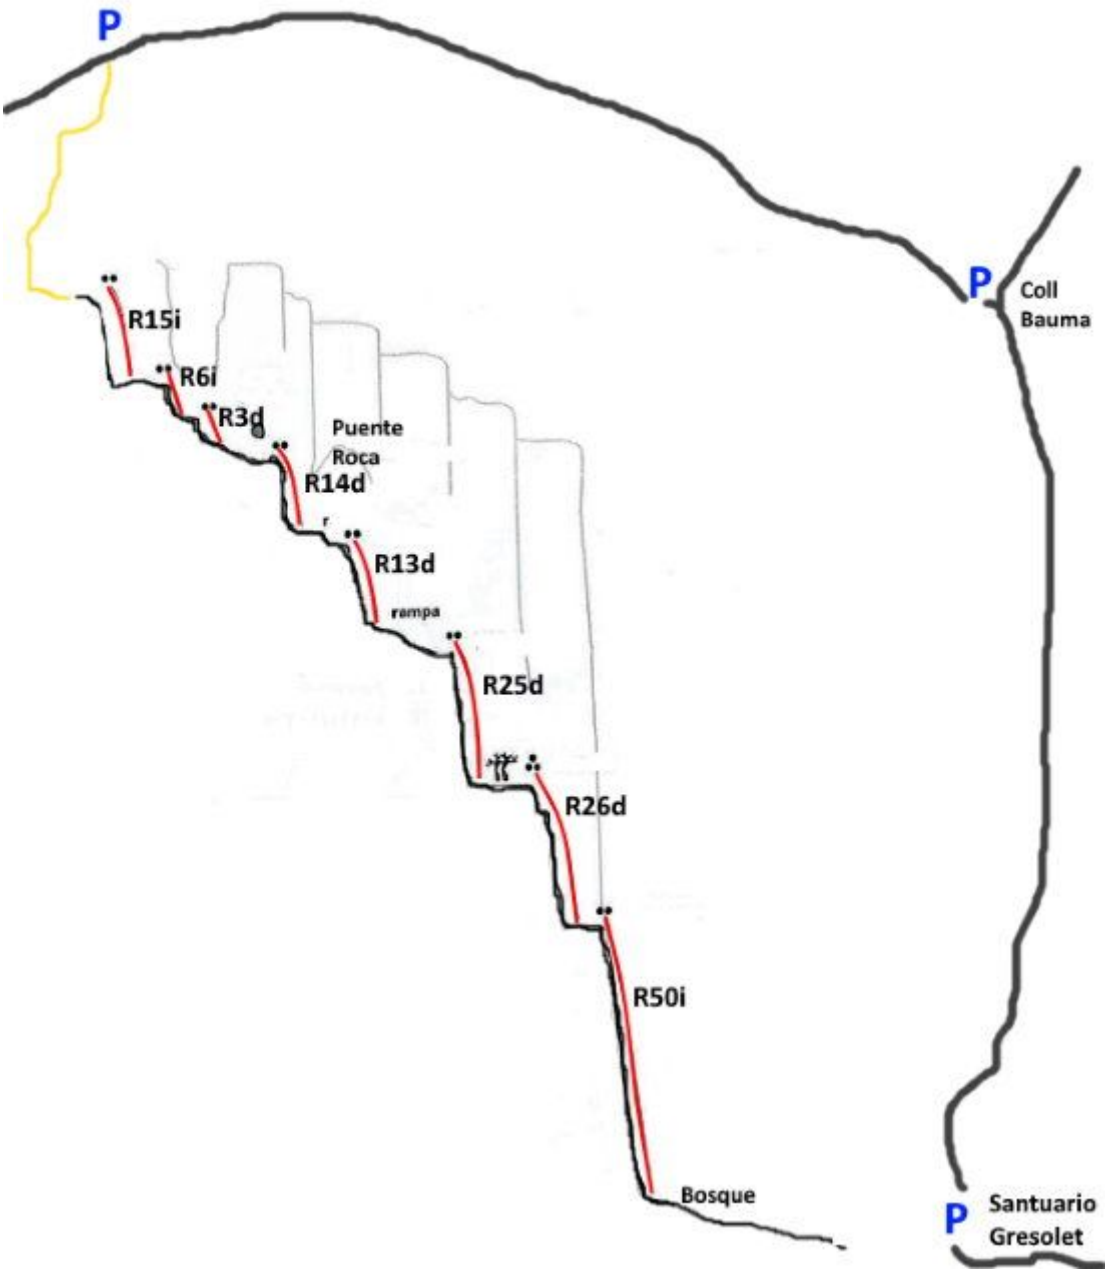

Retour: (traduction alternative)
At the end of the descent we follow the riverbed through the forest.
If we have two cars we continue straight ahead to take the track and go to the sanctuary on the right.
With a single car to reach the bottom of the valley we will see a path marked with dots that shortens the track to the hill where we parked.
