Matériel:
Cordes: 2x 50m

Résumé: (traduction alternative)
short rappel canyon with three waterfalls, the upper part (not described here) is uninteresting due to a rock fall.

Stands are 2022 in very good condition.

Hydrologie:

Accès: (traduction alternative)
At Chiusaforte turn into the Raccolana valley. After 3.8km on the SP76 you cross the Rio Vento. On the right bank of the stream is space for 2 cars

Approche: (traduction alternative)
At the bridge on the left bank begins a path that soon gets lost again. It is best to gain elevation in the fall line until you rejoin the trail that leads east into the canyons. You enter the canyon directly at the first waterfall.

The geocache could not be found in 2022.

Tour: (traduction alternative)
* 1st waterfall (45m) 2 x 8mm anchors left
* 2nd waterfall (15m) 1 x 8mm anchor left, very exposed
* 3rd waterfall (15m) 1 x 8mm anchor right or 1 x 10mm anchor left

One of the lower belays is extended with a piece of cord. Carry a spare rope here if necessary.

Retour: (traduction alternative)
through the streambed to the car

First descent 45 meters, required access to the main position, poor belay points. The other 2 descents good (the last position requires replacement of the handrail) (traduction alternative)

Very short and unfortunately quite slippery during our ascent. A quicky if you want to do something quickly at the exit of the day. (traduction alternative)

Very short gorge, hooks are in good condition perfect to combine with Rio Rivis. Climb track difficult to find but Gaia maps works well (traduction alternative)

The first canyon I did with the AIC—everything was great! (traduction alternative)
