Pays: Italia / Italy Région: Liguria Sous-région: Imperia Ville: Rochetta Nervina		
Difficulté: moins difficile	Niveau: v2 a3 II	Temps total: 3h55
Temps approche: 45min	Temps tour: 3h	Temps de retour: 10min
Altitude d'entrée: 430m	Altitude de sortie: 330m	Altitude du delta: 100m
Longueur du canyon: 2100m	Rapelle le plus haut: 12m	Nombre de rappelles: 6
Transport: à pied	Type de roche:	Zone de prise d'eau: km ²
Saison:	Orientation: Sud-Est	Meilleur moment:
Évaluation: ★ 4.5 (16)	Info: ★ 2.7 (15)	Belay: ★ 3 (15)
Spécialités:		
Matériel: Cordes: 1x30m		
Résumé: (traduction alternative) Attractive jumping and rappel canyon with warm, green water.		
Hydrologie:		
Accès: (traduction alternative) From Dolceacqua drive up the valley in the direction of Rochetta Nervina. Park in the large parking lot in the village (2023: 8 euros per day, 1 euro per hour, free for motorhomes at night). Water tap at the sanitary building/back wall. Shower in the sanitary building - only open during the day.		
Approche: (traduction alternative) Cross the stream and on the other side of the village follow the signs to a mule track ("Sentiero 13"). Follow the path for 35 minutes to a signposted junction and take the lower path. You soon cross the landslide zone with two large rock debris below the path and then reach the entry point at the Ponte Cin bridge. Fee for ascent - 2023 collection hut was not yet occupied at 08.45 h.		
Tour: (traduction alternative) Entry is at the bridge over the stream. Here you can jump directly to 8.6m (descente). In the following, jumps up to 12m and small, well-equipped rappels up to 10m alternate. In the lower third there are wonderful tuff formations similar to the Maglia. After a rappel between huge boulders, the canyon opens up. The last point is the jump from the dam wall. Bathers are often to be found here. Watch out! There is a place (picture 12 shows it from below) that is often used by commercial operators to build ropeways. There is a VERY well-equipped belaystation on the left which is only moderately suitable for rappels as the rope tends to get stuck in a crevice here. If you are rappelling, then rather orog. right a little further ahead. You can jump at this point, but it is essential to check out the spot carefully. The pool looks much deeper from above than it is and is full of large stones. The water level can best be assessed at the entry. There are no obvious canyons in the critical part of the canyon. The "signposted" emergency exits described by descente are non-existent. In some places, the slope can certainly be climbed with difficulty on the left. There are plenty of places to get out of the water.		
Retour: (traduction alternative) Quite laborious through the blocked streambed until you reach a bathing area below an artificial step. Turn right here on a good path back to the village.

Automatisch importiert von Descente-Canyon.com für Canyon Barbaira (aval) Debit correct, magnifique descente, attention le saut du pont est engagé il faut bien viser l'endroit le plus profond et même en faisant ça il faut amortir, attention a la grande vasque au niveau de la c10 elle n'est pas profonde ne pas sauter 2m50 de fond max c'est limite pour un saut de 10m, tout le reste RAS, Et l'encaissement juste magnifique (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/20522/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Barbaira (aval) Tous les sauts habituels passent, y compris le pont et le gros du milieu. Eau bien froide. Seul au monde. Personne a la cabane a péage. Par contre mi octobre 'e soleil est trop bas même à 1h30 pour profiter des belles couleurs (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/20522/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Barbaira (aval) La guérite était fermée ce jour, ras pour la descente du canyon, DC-, équipement en place, main courante en câble okay. Les sauts passent sans problème. En revanche le saut du pont me paraît bien engagé avec le niveau d'eau actuel. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/20522/observations.html>)
