Résumé: (traduction alternative)
Raw data import from Descente Canyons https://www.descente-canyon.com/canyoning/canyon/21397

Hydrologie: (traduction alternative)
Dry after the exit of the snowmelt

Accès: (traduction alternative)
Approach (downstream): Coming from northern Italy, between Firenze and Rome, take the Orte exit and head towards Terni. Then drive to Rieti and follow the signs to Ascoli Piceno via Antrodoco. Leave the SS4 in the direction of Sigillo. In the village, pass the small bridge over the river Scura and, after the fountain, take the road on the left that leads up the watercourse. This turns into a dirt road that is only open to authorized vehicles. The starting point is in the hamlet of Cassette, just before the track crosses the river Scura.

Shuttle service possible, but very long.

Approche: (traduction alternative)
There are several access points, one direct and quick via a path that has disappeared. Another access follows the path, but is longer in terms of kilometers. You can also take a long shuttle route.

- Direct and technical approach: Before the river, you have to go uphill to reach a path that runs above the hamlet. At about 890 m, go left along the cliffs on an apparent path. You pass a rocky outcrop and continue horizontally through two canyons. At 1180 m you reach a small, pleasant high forest. Now climb straight up onto the ridge. There is no path. At around 1450 m, you have to find a path on the left below the cliffs, which is not visible at first. It runs alongside the complex and finally overcomes the bar a few hundred meters before the Cavalli. Now the path runs along the canyon and finally crosses it. (2h30)

- Approach without shuttle via the Porcini refuge: continue along the path along the scura. Go under the canyon and at 1190 m turn right onto a path that leads up to the refuge. Continue to the right until you reach the ridge above the Cavalli. On the descent there is a ruin next to a spring. (3h)

- Approach with shuttle (40 km): Drive back to Rieti and head towards Terminillo. Continue in the direction of Leonessa. After the CAI refuge, at the 10th hairpin bend, while the road no longer climbs, a dirt road branches off towards the ridge. Park the vehicle without obstruction and follow the track to the Porcini hut and from there to the canyon. (1.5 hour hike)

Tour: (traduction alternative)
After a few jumps and an avoidable waterfall RG, you get to the heart of the issue. The waterfalls line up without interruption and form beautiful sheaves as the canyon flows. The highlight is the 95 m long, two-part waterfall with a smooth wall.
The water level paths up as the RD arm arrives. A lengthy part follows, which is an avalanche hazard in winter and takes almost three quarters of an hour. Only at the exit does the canyon narrow again, offering obstacles that break up the descent without being original.

No loopholes in the first part. Difficult evasions in between.

Retour: (traduction alternative)
Find the path that is RD de la Scura.
