Résumé: (traduction alternative)
Very short but strongly incised canyon in the limestone.

Hydrologie: (traduction alternative)
Small catchment area, almost always available.

Accès: (traduction alternative)
The drive up takes a while, the mountain road is single lane and has lots of bends. The canyon is definitely faster than the drive up.

Approche: (traduction alternative)
A trail goes up directly between the canyon and the gulch south of it. This is the quickest way to the start.

Tour: (traduction alternative)
A few small rappels and you're out again.

Retour: (traduction alternative)
Just a few steps and you're back at the car.

Have probably set the record for walking time. 15 minutes from car to car. We didn't even stuff the ropes back into the rucksack but threaded them straight to the next anchor. (traduction alternative)
