Matériel:
Cordes: 2x 50m

Résumé:
Rappel canyon in the suburbs of Locarno

Hydrologie:

Accès:
Park the lower car in the park in Minusio in "Via delle Vigne" right in front of "Esplanade" hotel and right before "Centro anziani Casa Rea".
Drive with the second car in Brione sopra Minusio in "Via Val Resa", right after "Grotto al Ritrovo dai Fusetti" there is a free parking with 4/5 places on the side of the street right in front of the reservoir/dam that is the canyon entry.

Approche:
From the parking just cross the street and you'll see the stairs going down to the dam, the gate is open, and you can find the first belay right on the balustrade.

Tour:
Best to walk in spring or after rains.
Relatively much deadwood in the canyon.
First part up to the checkpoint bridge is more open and sunny, with good panorama on the lake.
After the checkpint bridge the canyon becomes very narrow and the next exit possibilites are only around the road bridge at 467m.

Retour:
Immediately after passing the fourth road bridge, you notice the pedestrain bridge in front with an artificial stone wall modern fountain on the left; from it you can take the path on the right that brings you directly back to the road in fronf of "Centro anziani Casa Rea".

Coordonnées:
Départ du Canyon 46.1903 8.8236
Fin du Canyon 46.1808 8.8248
Parking à l'entrée 46.1913 8.8233
Parking à la sortie 46.1800 8.8227

Flow at checkpoint in medium situation wrt Eldorado Ticino reference picture, quite close to the upper limit (see photo). All the pitches doable, take into account that in many of them the current belays make you end in many cases right under the flow. All the anchor points in order, lot of logs/wood in the canyon after the bridge checkpoint, water in the pool very dark and not clean. The C22 (see photo), right after a road bridge and before the C45 (see photo), we downded from a tree on the right, cause it has a big log in the middle resulting in the risk of rope getting stuck in recovery with high flow if pressed against or below. The final C40 can be divided into C28+C8 cause after the pool there is a belay on the left; suggested to use with high flow to avoid entering the pool with lot of rope (see photo).

We did the trip after rain. Lot of trees in the canyon, okey canyon, probably better options available.

Automatisch importiert von Schlucht.ch für Canyon Navegna, Wasserstand: "Mittel - hoch" Verankerungen: "Ok" Viel Holz, v.a. im unteren Teil erfordert solide Abziehtechnik, um Seilverklemmer zu vermeiden. Schön dschunglig wie immer. (Quelle: https://schlucht.ch/schluchten-der-schweiz-liste/1101-navegna)
