Spécialités: Ruisseau de pluie,		
Matériel: Cordes: 2x50m outil de forage,		
Résumé: (traduction alternative) Continuous beautiful and rewarding aquatic lime canyon with deep views into the valley; almost all rappels are in the watercourse; no emergency exit until the middle of the canyon; dangerous at high water levels (pay attention to meltwater); a lot of loose rock; several exposed belays; sufficiently equipped (mostly two pitons/ May 2020); some slippery spots; several downclimbs; most of the sun is in the afternoon.		
Hydrologie:		
Accès: (traduction alternative) From Lienz drive in the direction of Silian (on the B100). At road kilometer 113 you turn left and drive over a bridge. After the bridge turn left and after a few meters you will find a parking lot on the right (here you can either park a shuttle car or walk up). From the barrier at the parking lot, follow the asphalt mountain road for about 1.5 km (road closed from 01.11-30.04). Then turn right on the forest road until you reach a haipin bend with a hunting lodge. Here you park the second car.		
Approche: (traduction alternative) (on foot: 1.5h) From the hunting lodge (Schwandhütte), follow the path to the right into the forest at the hairpin bends. A few meters uphill until you reach the saddle and at the saddle turn left uphill. After a few meters, the path is already clearly visible. Climb up the increasingly steep ridge that runs parallel to the canyon. After some time and a few meters in altitude in the sparse forest, there is a crossing over an exposed area, followed by a wide ditch. After the ditch, the path leads briefly uphill again to the next steep ditch with fixed ropes (old dilapidated Holzleiter are no longer usable). Once you have passed the second ditch, it is only a few meters through the mountain pine slope to the entry at 1150m below the mountain basin (mountain pines cut and rope safety devices renewed May 2020).		
Tour: (traduction alternative) Once in the rugged streambed, the first small steps (pools) immediately follow, which can be skillfully downclimbed and bypassed on the right. You will soon reach the first and highest 42m rappel (bolts on the left). After the highest rappel, the route continues without much distance. This is followed by several aquatic rappels up to a maximum of 25m in a slightly incised gorge environment. There are no deep pools, but the water pressure at some abseils should not be underestimated. To avoid a heavy shower, you can alternatively rappel to the left via two bolts outside the water at one of the last rappels, more precisely at the 25m rappel. The last two short abseils are already in the open gorge. Then downclimb/descend a short distance until you reach the large boulder field below the rock face at around 900m. The possible exit for the upper part or the entry for the lower part of the canyon is located here on the right. It is of course recommended to do the lower part at the same time (time required + approx. 2-2.5h with max. 35m).		

Retour: (traduction alternative)

If you don't want to walk the lower part of the canyon, you have the option of exiting the canyon at the boulder field on the right. First climb over the boulder field below the rock face to the left up to a fixed rope. After the rope traverse, continue over the steep ridge above the rock face to the Jägerstand and back to the Jadhütte (Schwandhütte).

Rapports:

2025-11-09 | Joey CIA | ★★☆☆ | 📖 | ⚓ ★★ | 🌊 Normale | 🍏 Terminé

With access from the lower parking lot, good water level. Super slippery even often in the waterline. (traduction alternative)

2025-09-21 | Olaf | ★★☆☆ | 📖 ★ | ⚓ ★ | 🌊 Normale | 🍏 Terminé

A nice, technical canyon with lots of descents. (traduction alternative)

2025-08-15 | Paul Niederwieser | ★★☆☆ | 📖 ★ | ⚓ ★ | 🌊 Faible | 🍏 Terminé

Very beautiful canyon. It took us about 1 hour from the lower parking lot to the entry. Had to search longer for some anchors. Lots of wood in the canyon. Comparison picture of our water level at the exit. (traduction alternative)

2024-08-15 | Holzer Johannes | ★★☆☆ | 📖 ★★ | ⚓ ★ | 🌊 Normale | 🍏 Terminé

All good. Two anchors should be replaced. Otherwise everything tiptop (traduction alternative)

2023-07-01 | Horst Lambauer | ★★☆☆ | 📖 ★★ | ⚓ ★★ | 🌊 Normale | 🍏 Terminé

Upper and lower part in perfect condition. Path to the upper part was apparently re-sarned with step bars and fixed ropes. Many thanks to the noble donor :-). Approach description I have adapted to the current conditions. (traduction alternative)

2023-04-08 | Thomas Fras | ★★☆☆ | 📖 ★★ | ⚓ ★★ | | 🚫 Pas fait

so far everything ok (traduction alternative)

2023-04-08 | Thomas Fras | ★★☆☆ | 📖 ★★ | ⚓ ★★ | | 🚫 Pas fait

so far everything ok (traduction alternative)
