Spécialités:

Matériel:
Cordes: 2x 195m

Résumé: (traduction alternative)
Initially a few low spots with small slides and jumps. Then very vertical. Without the 190m final waterfall, the longest pitch is 90m.

Hydrologie: (traduction alternative)
The level of the Flibach can be used as a guide to feasibility. This should be < 300l/s for an ascent without prior knowledge of the canyon.

Accès: (traduction alternative)
Take the A3 at exit 45 in the direction of Weesen.
Parking at the bottom, option 1: Parking spaces before the traffic lights. Shortly after the restaurant (Lago Mio)
Parking at the bottom, option 2: Note the vehicle size! After the traffic lights at the restaurant (Strahlegg Castle) in Betlis for CHF 10 (note: drive to Betlis always on the hour and half hour, drive to Weesen always at a quarter and at three quarters for 5 minutes each).
Info about the traffic lights: https://www.amden-weesen.ch/betliserstrasse

Parking above: On one of the numerous public parking lots in Amden Arvenbüel (e.g. Chapfstrasse, Leistkammstrasse, etc.)

Approche: (traduction alternative)
From the parking lot via the following roads to the bridge: Leistkammstraße -> Hinterstockstraße -> Kaltenbodenweid

Tour: (traduction alternative)
The canyon starts quite flat and offers a surprisingly beautiful and entertaining part right at the beginning. The rock is nice and smooth and there are even some opportunities for jumps and slides. As soon as the first part is finished and the first big waterfall is reached, the big adventure begins with huge and exposed parts. After the first 50m waterfall comes the huge 305m part, which is tackled in four parts ranging from 75m to 90m in length. The most impressive waterfall comes at the end. From a tree on the right bank, a 190m long rappelling route begins, at least 140m of which is free-hanging and directly in the waterfall. Use a good abseiling device and be prepared to tighten the rope for the first 100m.

Retour: (traduction alternative)
Follow the hiking trail orog. right towards Betlis to the car (if the 190m waterfall is made, otherwise follow the emergency exit)

Well doable with low/normal flow, but the final c190 gets you in the water & working whether you want it or not. Some of the most memorable minutes a canyoneer will ever have. A 2nd anchor for the intermediate 40+-waterfall would be nice. In the upper part some jumps are optional, but mind possible shallow pools. In short, to do once or repeat whenever possible :)

Anchors ok. The stream borders a wildlife sanctuary and the wall is home to endangered bird species. Gamekeepers and forest tenants do not welcome access. Protection period 1.12.-1.July (traduction alternative)

Too much ice and snow at the moment. We got out at the emergency exit before the high wall. We weren't sure what the second anchor on the Multi Pitch would be like. Possibly completely under ice as it was drilled in the dihedral. (traduction alternative)
