<b>Spécialités:</b> § réglementé,		
<b>Matériel:</b> Cordes: 1x45m+2x25m		
<b>Résumé:</b> (traduction alternative) Rappel canyon, dry; upper part not very rewarding, but final passage impressive.		
<b>Hydrologie:</b>		
<b>Accès:</b> (traduction alternative) From Barbastro in the direction of Alquezar. After about 20 km on the newly expanded A-1232 up to Alquezar. There we park our car in the parking lot above the center.		
<b>Approche:</b> (traduction alternative) You can get there directly from Alquezar on a dirt road, see: <a href="http://www.wikiloc.com/wikiloc/view.do?id=10481776">http://www.wikiloc.com/wikiloc/view.do?id=10481776</a> However, it seems more convenient to first drive from Alquezar or Radiquero to San Pelegrin (2.6 km from the first parking lot in Alquezar on the left), cross the village and then drive another 1.9 km further north. Here a dirt road turns off to the right at a sharp angle and we leave our car here. This is the start of a path that leads uphill in a northerly direction (with a small right-left turn in between). Later it turns slightly to the NNE. We reach the ridge and walk about 80 m to the SE to join a path coming from the south. We now follow it to the left. The path curves to the left and joins up with a path coming from the right. Continue north along the now shared path for about 150 m, then turn right onto a path that takes you to a right-hand side stream of the Chimiachas after about 500 m. From here, head north-east towards the Chimiachas. If you only want to rappel the interesting lower part, you can get there directly from the Tozal dero Tiesto on a well-maintained path (the thinly dotted path in the overview map down to the Rio Vero).		
<b>Tour:</b> (traduction alternative) 9 rappel; the upper part up to the intersection with the path wins only by the view. However, the long final rappels, especially the last one into the "Cocineta" can impress.		

**Retour:** (traduction alternative)

3 possibilities. Either in the Rio Vero to the Puente Villacantal and from here to Alquezar or downstream in the Vero to go up on the right at the height of the large overhang (tracks, cairns).

A third option would be to wade up the Vero for about 150 m and then take the path that I have already mentioned as an access route to the intermediate entrance from above.

The path we took first goes up from the river on a rock ramp, then crosses a small wall above the Chimiachas (wire rope), then crosses the Chimiachas itself and goes up to the top. There, either turn left to Alquezar or, after a short stretch of this path, turn right onto the track that leads to the car north of San Pelegrin.
