Résumé: (traduction alternative) Short rappel canyon		
Hydrologie:		
Accès: (traduction alternative) At the traffic circle at Locarno airport, where the 4-lane access road (coming from Bellinzona) to Locarno begins, head north towards the old Bellinzona-Locarno road. At the next traffic circle turn right onto this road and 850 m further on turn left to the school center in Riazzino. Turn right up the road in front of the school center and park the lower vehicle on the second parking level. Take a second vehicle back down, turn right at the school center and 330 m further on up the first road on the right. After two hairpin bends, you come to a crossroads which you follow to the right in the direction of Bugaro, Piandessio, Agarone. Before the bridge over the Pesta, we can park the second vehicle on the left.		
Approche: (traduction alternative) Go back along the road for about 100 m and then turn right onto the footpath towards Peross. On steps go up the vineyard; then the path walks towards the stream incision. We open (and close) a door in the wire fence and about 30 m further on we turn right from the path onto a path that leads us into the streambed. If you have only 1 vehicle available, the access to the top starts directly at the parking lot (then 40 min.).		
Tour: (traduction alternative) Sequence of easy rappels. Good to combine with the neighboring Cugnasco inferiore, Carcale or Tenero. Also feasible if other canyons have too much water flow.		
Retour: (traduction alternative) After the last step, turn right out to the parking lot.

Quite grippy to walk, only the last 3 rappels are mega slippery. Everything OK. (traduction alternative)

Quite slippery to walk. But went well with a normal amount of water despite the rain. (traduction alternative)

A bit slippery, we got off at the last exit before the exit (traduction alternative)

More wood in the canyon than before. Especially a new tree about halfway across the water line. Getting more and more slippery towards the bottom. (traduction alternative)

Okey trip, slippery in some places.

Automatisch importiert von Descente-Canyon.com für Canyon Pesta Entre gd et tgd, ça passe bien car on a pied dans toutes les vasques mais certaine font quand même réfléchir un peu. Fait après 2 bonnes journées de pluies (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/22500/observations.html>)

Beautiful individual spots. Everything ok. (traduction alternative)

All stands are perfect, practically all equipped with double anchor points. If you take the footpath up from the bottom, the path starts about 30 meters from the final waterfall orographic right. At this time of year, you have to walk through the undergrowth to discover the path. (traduction alternative)

Automatisch importiert von Schlucht.ch für Canyon Valle della Pesta, Wasserstand: "hoch" Verankerungen: "gut" Wasserstand etwas mehr als im Buch Eldorado Ticino; für gute Canyonisten tolle Begehung bei dem Wasserstand :) ein paar Duschen garantiert, keine gefährlichen Pools; etwas Holz, das aber nicht weiter stört.
