<b>Résumé:</b> (traduction alternative) Watery great canyon with smaller rappels, some climbing and swimming passages. This is one of a total of 4 canyoning tours along the course of the River Esteron.		
<b>Hydrologie:</b>		
<b>Accès:</b> (traduction alternative) From Nice on the N 202 northwards in the direction of Digne. After about 17 km on the bridge Charles Albert over the Var turn left and the D 17 up to Gillette and on winding road further behind in the Esteron valley to Roquesteron (about 26 km from Var bridge). 3.5 km after Roquesteron turn left onto the D 10, after another 3.5 km cross the bridge at the exit of the Riolan, after another 4.5 km you reach the village of Aiglun. At the western exit of the village there is a large parking lot also for the gorges. With the second vehicle you go back to the D 17 and there turn left to Sigale. From here along above the Clue de Riolan to the road junction at Pont de Miolans (7 km on the D 17). Here turn left onto the D 2211 and after about 4 km turn left to the village of Sallagriffon. Park the second car in the large parking lot in front of the village.		
<b>Approche:</b> (traduction alternative) From the parking lot, walk a few more meters towards the village and then take the first dirt road to the right (marked "75"). Via "75a" you reach a ridge that offers a view of the entrance to the Aiglun gorge. You come to an information board. At the "75b" marker, turn right off the hiking trail onto a path and head southwest down to the stream. If you only have one vehicle, you can reach the entry from the village of Aiglun on a mountain path over the ridge of Mont St Martin (1257 m), see also wikiloc link.		
<b>Tour:</b> (traduction alternative) With a catchment area of 170 square kilometers, the attractive canyon with its narrow wood-blocked passages is life-threatening when the water swells. Similar to the neighboring Riolan, the water is regularly cloudy, so that the few climbing options must be sounded out beforehand. In some places, fixed ropes are used across and above the chute to avoid the arduous and sometimes difficult climbing over the blocked wood in the chute.		
<b>Retour:</b> (traduction alternative) 100 m before the road bridge, the sign "Sortie" obligatorily indicates the exit. You climb up a good path (beautiful views!), then see the village of Aiglun at the top and then reach it in a few minutes.

Nice water level. Most of it could be jumped or downclimbed. Some trees in the narrow sections, but with a grippy lime layer. We parked right at the exit at the bridge and not up at the place. Space for about 3 cars. On the way back, don't follow the signs, but buy almost to the bridge and turn left up the rock band. A bit alpine but the locals also do this in parts and it's easy to do with slightly older kids. saves a few meters on the way back... (traduction alternative)

Automatisch importiert von Descente-Canyon.com für Canyon Aiglun Gros débit selon les critères de DC. Ça secoue fort dans l'actif. 2 très beaux encaissements, des couleurs sublimes... Les mains courantes pour éviter l'actif peuvent vite être très longue (15/20m) à simple. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2223/observations.html>)
