Avertissements:
Nouveau chemin en raison de la construction
Itinéraire à nouveau accessible grâce à la collaboration de la municipalité de Gordona. Il est obligatoire d'éviter la zone située sous l'éboulement car il s'agit d'un chantier en cours et il y a des tôles et des fers à repasser dangereux. Nous avons aménagé un itinéraire avec des cordes fixes le long des corniches pour contourner la zone dangereuse. Lorsque vous trouverez une corde jaune sur la droite, suivez l'itinéraire équipé pour contourner le "saut des rochers rouges". Ceci est valable pour tout le mois de juillet.

Spécialités:
ruisseau amusant, § Parking payant,

Matériel:
Cordes: 2x20m (1x20m/1x40m)

Résumé: (traduction alternative)
Very beautiful canyon with emerald green cold water; very well equipped; €7,- for private mountain road; 1st part easy; 2nd part medium, 3rd part very long and demanding (pay attention to water level!); very nice and grippy gneiss and granite rock; most of the rappels are out of the water, but the canyon as a whole is very aquatic!

Aquapark-like fun canyon. Huge pools and lots of slides and possible jumps. Extremely well insured and heavily used commercially.

Hydrologie: (traduction alternative)
Webcam with water level: <http://www.valbodengo.com/d/phone/webcam.html>

Accès: (traduction alternative)
At the village Gordona you drive to the church --> left. behind the church there is a café where you have to buy a ticket for the private road for €5,- --> after that it goes right. at the church briefly up --> at the bend left --> then sharp bend (at bend) right up --> next bend left. up --> follow the road (direction Pra Prince) --> at approx. 820Hm before a sharp bend on the right, there is a parking lot on the left --> park here --> after approx. 50m there is a no motorcycle sign (on the left) with signs Mulattiera per Bodengo and Strada Carrozzabile per Bodengo (this is the way where you come up from the bridge / way back).

Approche: (traduction alternative)
From the parking lot up along the road you get to the entry to the 2nd part --> before the small mountain village on the left over the road bridge of Bedolina (signposted parking lot Bedolina) (entry at about 870Hm).

Tour: (traduction alternative)

Walking and climbing passage about 50m. Short swimming section. Walking and climbing passage approx. 50m. Slide 3m or jump 3m. Short swimming section. Walking, climbing and swimming passages ca.100m. left. single bolts to the traversese rope. From the traversese rope R10 (left) + jump 5m or rappel 15m (left) After the pools emergency exit (nr.9, orange sign) left. glued anchor for belaying to the belaystation left R15 (left) (rope retrieval from big boulder possible) The canyon narrows. Short swimming section. Walking passage approx. 100m. Pass large boulder. Emergency exit No. 7 (left) + small inflow from the right at the abseil point R18 (right) (at the 18m only with little water jump (or slide) in deep hollowed pools possible, as an exit facilitation is at the edge of the pool on the right a single piton where a rope can be attached). Siphon (can be bypassed on the right). Jump into large pools with a small swimming section. Emergency exit no. 6. walking and swimming passage. Climbing passage ca. 200m in open canyon. 2 small tributaries left. Narrowing canyon with overflowing boulders. Climbing and swimming passages about 80m. Emergency exit no. 4. very nice passage R10(r.) in pools. r. climb up via fixed ropes. Jump or downclimb in large pools ca. 5m. Walking and climbing passage ca. 50m. Emergency exit No. 3. 50m walking and climbing passage to short narrower gorge section. R15 (left) exit on rocky ledge or in current + short swim. Walking passages to the next rappel point R8 (right) can be bypassed on the left and downclimbed. Flat walking and climbing passage. Short swimming section in small pool. Single pitons on the left for belaying to the traversese rope or rappel on the right via glued anchors into hollowed pool and to the traversese rope over the current + R8 or S8. Short swim and downclimb over smooth polished rocks. Walking and climbing passage over granite boulders about 100m. Emergency exit no. 1. rappel left. 5m over fixed ropes. Large pool. left. single glued anchors for belay to belaystation. From chain anchor R10 (left) or S10 into large pool with current. r. climb over fixed rope onto large boulder.short rappel over fixed rope to belaystation R8 (right) or S8 (or S12 from above) short swim. Bypass large boulder on the right. Short climbing passage and jump from boulder into pool. Short walking passages approx. 50m to the last rappel point R10 (left) (rope ferry advisable in case of much water). Short swimming passages to the meeting with the Pilotera (stone bridge) (approx. 730Hm).

Retour: (traduction alternative)

At the inflow of the Pilotera (approx. 730Hm) turn left up the trail steeply to the road and right back to the parking lot.

Absolutely awesome. Awesome jumps, and awesome slides. Very beautiful clear cold water. 12mm glue in U bolts. At a normal flow, it's super straightforward.

We completed all three sections of Bodengo in one go. The low water level made the entire descent quite easy. It took us 8 hours from start to bottom with a team of 5 people. The anchor points were generally in good condition, though in Bodengo 3, finding them required a bit more effort. There are also fewer anchor points in this section, which sometimes necessitates climbing down. Fortunately, the rock provides plenty of grip. Overall, I enjoyed Bodengo 1 and 2 the most. The "Slide of Death" in Bodengo 3 was exciting, but there was also a lot of walking over large boulders, which made it a bit tedious at times. If I had to choose between the Bodengo Integral and Bares, I would go with Bares!

Automatisch importiert von Descente-Canyon.com für Canyon Bodengo For Bodengo 2, Work on the road looks complete, but the deviation remains recommended because there still is a lot of metal and parts of the road in the canyons. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2533/observations.html>)

2024-07-04 | Urs K. | ★★★★★ | 📖 ★★★★★ | 📌 ★★ | 🌊 Normale | 🟢 Terminé

In July, MO-FR from 8:30-12:00 and 13:30-17:00, the road between the start/exit of Bodengo 2 is closed (the slope stabilization above the road is currently being done, see photo). The diversion in the canyon with the yellow rope (information also at the changing cabins) cannot be overlooked at rappel #4. Apart from the place where it is closed, everything is superiore! (traduction alternative)

2024-07-02 | Patrik | ★★★★★ | 📖 ★★★★★ | 📌 ★★ | 🌊 Faible | 🟢 Terminé

Until the exit in July, the road to the entry is only passable at midday (<https://www.comune.gordona.so.it/hh/index.php>). We therefore parked at the exit of Bodengo 2 and then walked up to the entry of Bodengo 1 in just under 40'. The yellow rope for bypassing the rockfall is clearly visible on the right-hand side. A new fixed rope could be installed at the first jump and at abseil point no. 3. Otherwise all jumps and slides are doable. (traduction alternative)

Automatisch importiert von Descente-Canyon.com für Canyon Bodengo Gros débit qui ne pose pas de problème si on connaît le canyon, sûrement plus problématique à vue. Il y a eu un gros éboulement sur la route d'accès avec énormément de débris dans le canyon. Les travaux semblent finis et la route semble ouverte normalement. Équipement ras, il semble qu'on soit les premiers à passer de la saison vu les feuilles dans les broches (Quelle:
