Résumé: (traduction alternative)
Raw data import from Ropewiki https://ropewiki.com/Ducanbach

Short canyon that always carries a lot of water. Perhaps a good option for those who want to experience a high flow without having to do anything very long. The canyon is equipped so that you don't have to rappel through the water. (machine translated)

It's unlikely to be a classic, but it fills out the map in an area where there is virtually nothing for canyoning. (traduction alternative)
