Spécialités:

Matériel:

Résumé: (traduction alternative)
Canyon parallel to Bco Santo, with an endless number of small rappels well installed, rock of dubious quality and the possibility of combining with the rest of bcos in the area very quickly. The last rappel forces us to a fairly long return or to make a combination of cars.

Hydrologie:

Accès: (traduction alternative)
We will have to be located in Pizarra where we will arrive from Malaga by the A357.
Just arriving to Pizarra, in the p.k. 21,4 we have an exit to the right that we will take to continue towards Fuente Luna (there are indicators of PR-A 128).
The other option is from the village of Pizarra to go up towards the soccer field and behind it take the Guadalhorce street, from there a track towards Fuente Luna.
On the track that goes up to the Santo, once we are up we will pass the antennas next to the Cerro Cruz and park.
The return car, in Pizarra, you have to look for the soccer field and above the C / Sauce, at the end of it we will park, next to the Recreational Area of Raja Ancha.

Approche: (traduction alternative)
Access to bcos Mijarra, Raja Ancha and Castillejos de Luna
We leave to the left to the gully that we have, we will follow it by a small path until arriving at the first rappel.

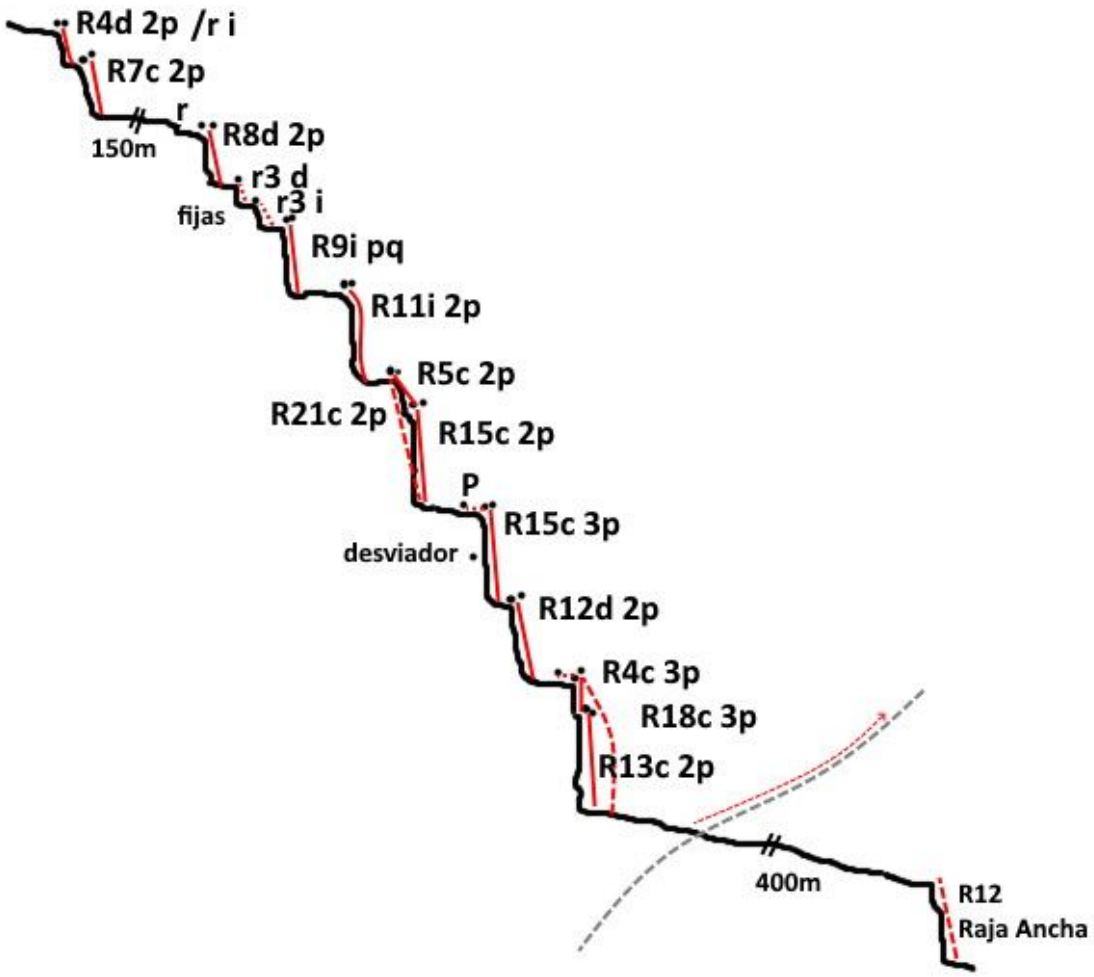

Tour: (traduction alternative)
Succession of 11 rappels, some can be skipped and two together. The rock is not of high quality but the anchors are very good, although some of them are in the back, with the consequent difficulty in recovering the ropes.

Retour: (traduction alternative)
After the last rappel we could walk 400m to the Raja Ancha and do the 12th, in that case we will continue to the recreation area where we will have the car parked.
If not on the path that crosses the riverbed, we will go to the left to, following the signs of the Santo, go up to the access track.
