Résumé: (traduction alternative)
Rappel canyon, mostly without water flow. Has also been called the most beautiful canyon in Catalonia.

Hydrologie: (traduction alternative)
http://www.saihebro.com/saihebro/index.php?url=/datos/ficha/estacion:EM76

Accès: (traduction alternative)
Coming from the north (Andorra, Seu d'Urgell) or south (Lleida) on the C 14, turn onto the L 511 at Coll de Nargo in the direction of Tremp. After 16.2 km, take the road that branches off to the left towards Gavarra. We head south and about 300 m before reaching the village and before the road climbs again, we come to a road junction around which several farmsteads are grouped.
Here we take the track in an easterly direction, always keeping to the right at junctions, the track curves south and after 4.4 km we come to a barn on the left-hand side of the track. On the left we can see a large open space. To the right of the track, which bends slightly to the left before the barn, is a flat area. We park our car here.

Approche: (traduction alternative)
From the car we first descend the slope to the east, then in an arc to the south. Entry from the orographic left side of the canyon. See also wikiloc!

Tour: (traduction alternative)
The canyon, which is extremely attractive when water is flowing through it, is not to be underestimated in its length and because of the danger of falling rocks (especially when it rains); in addition, when water is flowing through it, the Rio Rialb, into which the canyon flows and which must be followed a good way down, can also flood (probably still doable up to a point).

Retour: (traduction alternative)
After reaching the Riu Rialb, we wade downstream until the canyon opens up. Here we see a green boulder in the river bed. We then also see markings on the left bank indicating the exit. We climb up and reach a forest path. We follow this to the left, keeping close to the canyon rim if in doubt, and return to the car.

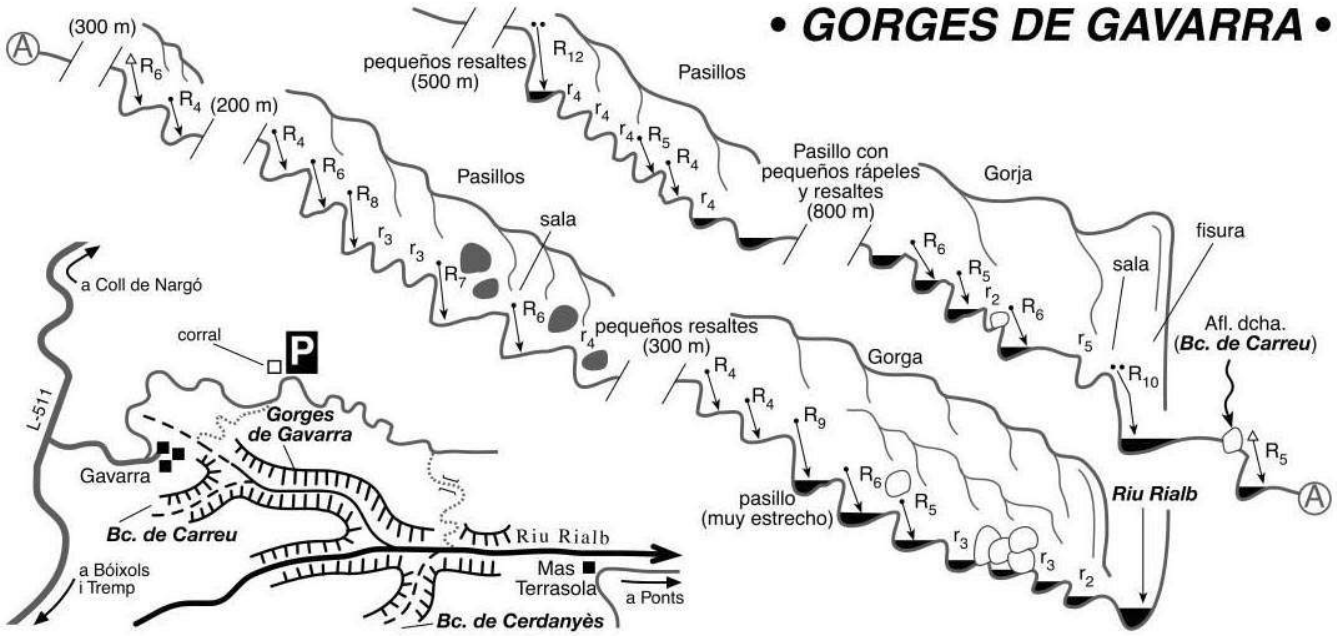

Coordonnées:
Départ du Canyon 42.0981 1.1974
Fin du Canyon 42.0763 1.1670
Parking à l'entrée 42.1050 1.1969
Point de repère 42.0824 1.1666
