Résumé: (traduction alternative) gloomy, vertical rappel canyon, mostly with a lot of water, which can not be avoided several times; first rappel with free transfer; rappel (r) under big block (lamp!!!) can be defused by short hanging and overclimbing right into a chute; strongly flood & mudflow endangered! A mudflow in 2011 (?) has filled the underground part of the canyon, so that it is not accessible (as of 2023).		
Hydrologie:		
Accès: (traduction alternative) from Bovec up the Soca valley to the parking lot 150m before the last bridge over the S.; from Kranjska Gora over Virsicpass down to the Soca over the bridge, then after 150m on the right there is the parking lot
