From around 11:00, the whole canyon is still beautifully sunny despite the very depth of the sun. bachab

Second round, we took out many fixed ropes, rusty quicklinks and replaced with inox quicklinks + rings instead, doubled a few anchors, removed one or two that was badly placed (hollow rock or too near the water) etc. Just a few more fixed ropes to take out for the next team.

Nice surprise. Especially a few abseils, we chose the active lines, but from on top you don't know what to expect really. Drilled a few anchors, even chose to change some lines. The first one, for example, at the landslide (abseiling via a tree), we now have a new abseilstand on the right bank (no rope friction, not exposed, on good rock), whereas the old one is hard to reach. Unfortunately quite a few fixed ropes that need changing (or also cut the ropes and just add quicklinks) a few more renewed anchors would be welcome. Early approach is enjoyable, only the last part is without trail and uneasy. Beautiful & in the sun this time of year

Beautiful canyon with water flow. All installations in order. Did not rappel the first high waterfall in the jet. Some rappels could be dangerous with a lot of water. Partly slippery. (traduction alternative)

Automatisch importiert von Schlucht.ch für Canyon Sulzbach, Wasserstand: "Eher hoch, wir haben die grossen Engstellen gemieden" Verankerungen: "2. Stände erneuert, ok." Das viele Wasser hat seine Spuren hinterlassen, erstaunlich wieviel Wasser da die letzten Tage wohl runterging (Quelle:
