**Matériel:**
Cordes: 1 x 40m, 1 x 50m

**Résumé:** (traduction alternative)
Medium-high rappels, a few small jumps and super beautiful geography.

**Hydrologie:** (traduction alternative)
Important (no alternative route before the lower part of the large waterfall).

**Accès:** (traduction alternative)
From Locarno drive first towards the Maggia valley --> follow the road to the village of Bignasco --> there follow the signs to Brontallo. Drive past the exit to Brontallo for approx. 900m. A hiking trail crosses the road here. We park the car here.

**Approche:** (traduction alternative)
From the car, follow the path downhill to the bridge over the Maggia. Cross the Maggia and keep right on the opposite side (path from the stream). At the next junction, keep left again towards the stream. Cross the stream and you will soon come to a path where you keep to the right and head towards the village of "Pianello". In the village, keep right towards the stream and cross into the valley slightly downhill until you reach the streambed.

**Tour:** (traduction alternative)
Short canyon with medium rappels, not too technical a few small jumps. Very nice geography.

**Retour:** (traduction alternative)
A little way down the Maggia BEFORE the bridge on the opposite bank, take a small path to the bridge. Then turn right to the car.

The rappelling point H (see topographic view) is currently blocked by a huge tree stump. We bypassed the spot on the right by rappelling down from a small tree. (From below, it looked as if you could climb under the root stump...). At rappel point J, there is an M8 quickdraw without a plate.  (traduction alternative)

Take 2–3 slings; the bolts are still in good shape. After last night’s thunderstorm, the water level was a bit challenging for some rappellers, but it should be manageable tomorrow. (traduction alternative)

Automatisch importiert von Descente-Canyon.com für Canyon Serenello Eau très froide, rocher magnifique, extrêmement impressionnant même sous l'eau. L'énorme racine d'arbre dans le dernier tiers se passe bien en dessous a droit.Nous avons installé une nouvelle ligne de rappel avec main courante sur la rive droite du C40, où vous pourrez descendre en rappel dans l'eau sans frottement de corde.Le retour par le ruisseau principal est très court, mais il complète parfaitement la descente. Very beautiful canyon. Worthwhile and recommended. Very good rope run at the 40m final waterfall when using the two chains on the right (top as a feeder, the second one directly behind the edge) Large tree root in the last third, but you can get through quite well without a rucksack. The jump into the Maggia at the end was a great tip and adds to the tour. (traduction alternative)

Beautiful canyon, could be even longer (that's why we went to Val Cocco afterwards). The jump into the Maggia at the end is also a cool thing. (traduction alternative)

Automatisch importiert von Descente-Canyon.com für Canyon Serenello GD++ ce jour après les pluies de la veille, beaucoup de guidés humain, pas mal de relais où il ne reste qu'un point, l'autre est arraché . Un gros arbre coincé avant le pont, attention ça sifonne. Sinon, magnifique et malheureusement moins connu que d'autres. Good weapons. Short but interesting gorge, scenically beautiful. Beware of the 40 MT rappel because it has a blade that damages the rope. The 'entrance la greto, arrived at altitude, starts from behind the houses immediately to the right in sub horizontal altitude.  (traduction alternative)
