Spécialités:

Matériel:
Cordes: 2x 25m

Résumé: (traduction alternative)
Lower part after the Canal O'Ciego
Via Ferrata in the canyon.

Hydrologie: (traduction alternative)
All year round, although times when there is some water flow are preferable.
In midsummer, the heat is almost unbearable as this canyon faces south.

Accès: (traduction alternative)
From HUESCA, drive to the VADIELLO area (22 km).
Park the car near the poplar grove and cross the bridge.

Approche: (traduction alternative)
To the west, above an irrigation canal, take a well-marked path and climb up the left bank of the Barranco d'ISARRE.
Enter the first canyon, which rises quickly.

Tour: (traduction alternative)
Once you are in the canyon, use the existing rungs (gorges) to climb up the successive steps.
Since 1954, an association has installed 240 anchored pins there.
The special thing about this canyon is that you can climb up as well as down.
The ascent is just as much fun as the descent.
Once at the top, you have to descend this canyon again, making sure that the ropes don't get tangled up in the anchors...
These anchors can also hinder progress or even injure an inattentive person.
In total, there are around ten abseiling points of a maximum of 25 m.

A less challenging canyon, as all these steps allow an easy exit towards the sky or the ground.

Retour: (traduction alternative)
Descend the Barranco d'ISARRE along the same path as the ascent.

Coordonnées:
Départ du Canyon 42.2406 -0.2878
Fin du Canyon 42.2388 -0.2882
Parking à l'entrée et à la sortie 42.2384 -0.2855

Automatisch importiert von Descente-Canyon.com für Canyon Palomo On a grimpé sur les voies en bas du canal puis comme il faisait trop chaud on y est monté. Pas si facile pour une via avec moyen de s'empaler quelques fois. Canyon mignon mais assez court (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/20786/observations.html)

We traversed it following the via ferrata; there was very little water.
