<b>Spécialités:</b>		
<b>Matériel:</b> Cordes: 2x30m		
<b>Résumé:</b> (traduction alternative) varied - jumps, slides, rappel, climbing through tree stumps. Partly it looks wilder than it is. Pools often only very shallow!		
<b>Hydrologie:</b> Felsiges Einzugsgebiet, bei Gewitter unangenehm. Wasserstand kann an der Brücke und an der Staustufe begutachtet werden.		
<b>Accès:</b> (traduction alternative) Directly to the Haldensee. Choose the parking lot for Tauscher's Alm or Naturcamping at Haldensee as your destination.		
<b>Approche:</b> Vom Parkplatz aus über die Brücke und dann rechts dem Pfad folgen. An der Geschiebebremse oder kurz darauf an der kleinen Brücke kann der Wasserstand in Augenschein genommen werden. Dann weiter über den steilen Wanderweg auf der orografisch rechten Seite bergauf, dann auf der Forststrasse bis diese an einer Brücke den Strindenbach kreuzt.		
<b>Tour:</b> Das erste Drittel bis zum A27 relativ offen mit kleinen Rutsch- oder Sprungmöglichkeiten in eher flache! Pools. Die Schlucht wird dann eingeschnittener und bietet nach dem 27m Abseiler noch sehr schöne Stufen mit überwiegend flachen Pools. Teilweise sind hier aber große Verklausungen, auf die Acht zu geben ist. Bei hohem Wasserstand können an kritischer Stelle Umlenker für Seilgeländer genutzt werden um das Wasser zu vermeiden. Die Haken sind hier recht hoch eingebohrt und sind ggf. von unten schwerer zu erreichen. Alle höheren Haken sind allerdings mittlerweile mit Fixseilen zum leichteren Aufklettern ausgestattet und können so sehr angenehm erreicht werden.  Am Ende überrascht der Bach nochmal mit einem etwas engeren Einschnitt, der ein paar schöne Rutschmöglichkeiten bietet.		
<b>Retour:</b> (traduction alternative) After the brick slide brake (last rappel directly on the concrete on the left), continue a few meters further until you can easily exit to the right onto the access path at a water extraction point on the left bank.		
<b>Coordonnées:</b> Départ du Canyon <a href="#">47.4800 10.5595</a> Fin du Canyon <a href="#">47.4893 10.5643</a> Parking à l'entrée et à la sortie <a href="#">47.4897 10.5666</a>		

## Rapports:

2026-06-18 | MajorCanyons | ★★★★★ | 📖★★★★ | 🪚★★★ | 🌊 Faible | 🍏 Terminé

We hiked the Strindenbach today when the water level was rather low. The ascent takes 35 minutes at a leisurely pace (not including a 5-minute break). It was a beautiful canyon right from the start. We had perfect, bright sunshine starting at 10:30 a.m. Since we had plenty of time, we checked out all the pools. All the slides were accessible. Two pools were 2.50-3 meters deep and suitable for jumping into. Even a 4-meter jump was no problem. Contrary to another review here, all the anchors were easily reachable for people 1.65m or taller. Climbing up was possible using a fixed rope. Toward the end, you just had to find the anchor in the center of the rock face; there was no need to reach the old anchor. The canyon is generally more than adequately secured. There are far more anchors and rappelling points than you need, since many sections could be traversed or downclimbed diagonally with ease. All in all, including breaks and everything else, it took us exactly 5 hours. We jumped and slid down several times in some sections and made full use of the stream. If you're the same way, you might want to buy a longer parking ticket or park via the app. (traduction alternative)

2026-06-14 | Kris Klein | ★★★★★ | 📖★★★ | 🪚★★ | 🌊 Normale | 🍏 Terminé

Everything is in good shape. Some of the fixed ropes are new. There's quite a bit of wood in some spots, but it's all manageable. Some of the slides are doable. The jump hasn't been tested. Beautiful canyon! Photo of the wall at the end, the high rappel, and the jump. (traduction alternative)

2026-06-04 | Airmax | ★★★★★ | 📖★★★★ | 🪚★★★ | 🌊 Faible | 🍏 Terminé

Anchors ok. Water level low. Some slides and a small jump possible. (traduction alternative)

2026-05-25 | Jackcachpot | ★★★★★ | 📖★ | 🪚★ | 🌊 Faible | 🍏 Terminé

Surprisingly good for lime, many slides and a small jump possible. I drilled three more anchors in the lower part. (traduction alternative)

2026-05-24 | Iotama | ★★★★★ | 📖★★★★ | 🪚★★★ | 🌊 Normale | 🍏 Terminé

Anchorage and ropes are all in good condition. Today there was a little more water than "normal", but it still went very well. The pools were all covered in gravel (mostly only knee-deep), no jumps possible. Slides were no problem everywhere. Towards the exit there were a lot of branches in the stream, which also had to be bypassed in a more complicated way. Two anchors were in an awkward position, no idea how you would normally get there ☐ A little improvisation helped All-round beautiful canyon at the start of the season (traduction alternative)

2025-09-10 | Andreas Gobber | ★★★★★ | 📖★★★★ | 🪚★★★ | 🌊 Normale | 🍏 Terminé

The slide in front of the big rappel is now doable again, the tree trunk in the pool could be removed and a fixed rope is still hanging. (traduction alternative)

2025-08-05 | Ralf Breitenstein | ★★★★★ | 📖★★★ | 🪚★★★ | 🌊 Normale | 🍏 Terminé

Everything in order, upper pool, formerly accessible by jump, now blocked by two trees and completely covered with gravel. However, fixed ropes have already been installed. Photo shows the water level from the bridge. (traduction alternative)

2024-08-04 | Waldemar Engelhardt | ★★★★★ | 📖★★★★ | 🪚★★★ | 🌊 Normale | 🍏 Terminé

Abseil stands all in order. Slides all went well. Water nice and clear (traduction alternative)

2023-10-01 | Christoph Cramer | ★★★★★ | 📖★★★★ | 🪚★★ | 🌊 Normale | 🍏 Terminé

Hooks and fixed ropes in order. Super clear water, pools mainly very shallow and maximum chest deep. (traduction alternative)

2023-09-09 | Christoph Cramer | ★★★★★ | 📖★★★★ | 🪚★★★ | 🌊 Normale | 🍏 Terminé

All hooks and fixed ropes in good condition. Pools mostly only waist deep. Water clear. Cell phone reception available several times. Description updated. (traduction alternative)

2023-07-31 | Ralf Breitenstein | ★★★★★ | 📖★★★ | 🪚★★★ | 🌊 Normale | 🍏 Terminé

All hooks and rope railings (new) in order. Partly very slippery places when rappelling. (traduction alternative)
