Hydrologie:

Accès: (traduction alternative)
Location Horta de Sant Joan
We will be located in Horta de Sant Joan on the T330.
Access Moles del Don
We will leave towards Arnes and after 100m we have the detour to the left to "Els Ports". Follow the track/road for about 6.5 kms. A track comes out on our right (180º turn) that takes us to the parking lot.

Approche: (traduction alternative)
Approaching Patxi, Skpat and Vent
By the track that goes down to the river, towards the Estrets of Arnes, soon becomes a path. From here we will have magnificent views of the Moles del Don. After leaving them behind, at the left turn of the trail we will see the Magi channel. We will look for the best place to cross the river and some milestones that lead us to the beginning of the equipped channel. It has a life line and staples for the most difficult steps. Once we leave we will have to follow south direction, here the path is lost a little, to go to look for the wall with the 3 channels, the first is Patxi, the second is Skpat and the third is ours.

Tour: (traduction alternative)
A first part covered with vegetation, where we will advance to two small abseilable rappels that, as a precaution, we can secure in two trees, will place us in the vertical of the wall. A very narrow area where we will link the 35m rappels to gradually open up until we reach the final part of the wall.

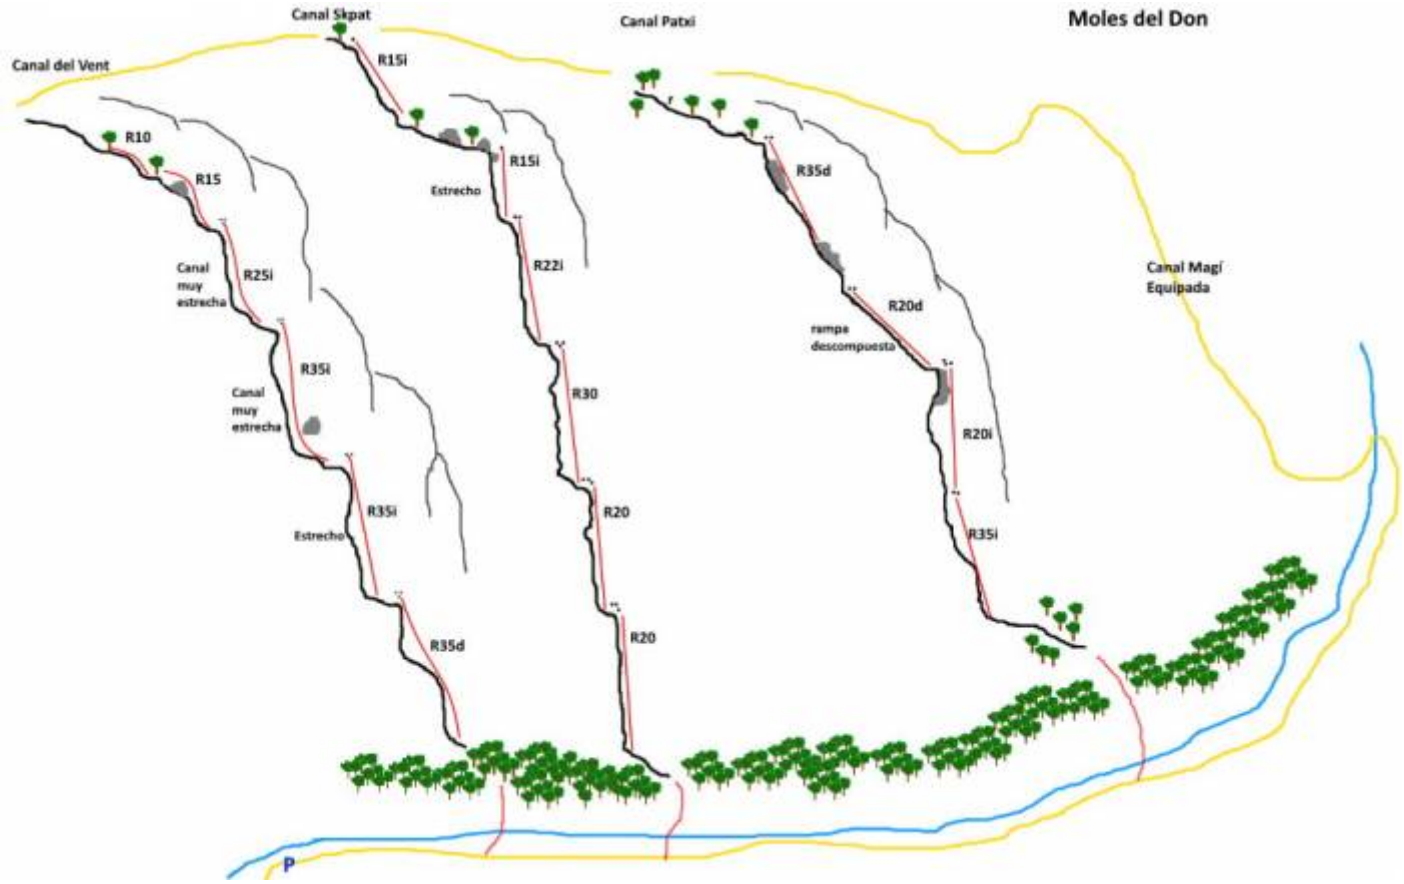

Retour: (traduction alternative)
Without a fixed path we go to the river where we will see a small bridge to cross the river and take the access path.
