The road climbs along the rock. At the next leftward hairpin bend, park the first car in the parking lot (9.6 km from the freeway). Continue with the second car up to Amden as far as the Fallenbach bridge at the exit of the village (another 2.7 km).

Swim through it as soon as possible out to the right. At the dam wall you have to expect a suction effect. Caution is advised! Since 2012 swimming through the reservoir is prohibited. A permit can be purchased for 1000,- Swiss francs incl. instruction. Without a permit a fine is due.			
Retour: (traduction alternative) Swim through to the reservoir with permission: From the dam wall up the path to the right (direction W) for about 250 m and back to the hairpin bend where the car is parked. Swim through to the reservoir without a permit: About 30 m after the road bridge out to the right and follow the path to the parking lot about 5 min.

Super beautiful, clear water like rarely before. Wood chaos has moved down, just before the high rappel. The rest is only slightly slippery and everything is jumpable and slippable. (traduction alternative)

All necessary hooks present. In the upper part a little rusty. Lower part which is commercially walked is perfectly equipped. Municipality Amden has introduced in the area of the Fallenbach and Rombach a time-limited game rest zone until 01.07. Also a sign incl. cameras has been set up at the reservoir. Who is caught with swimming through has to reckon with sensitive fines. The local canyoning company has a permit to enter the area. (traduction alternative)
