Valutazione: ☆ 2.6 (3)	**Info:** ★ 2 (1)	**Belay:** ★ 3 (1)

Specialità:

Attrezzatura:
Corde: 1x30m

Sintesi: (traduzione alternativa)
Lush vegetated forest canyon, Is also walked commercially.

Idrologia:

Accesso: (traduzione alternativa)
From Lleida, drive north on the C-13 via Tremp to Pobla de Segur (100 km). Turn left at the traffic circle before crossing the river Flamisell and continue on the N-260 to Senterada (10 km). At the entrance to the town, turn right into Vall Fosca, take the L-503 and after 13 km turn right uphill towards Mont-Ros. Where the road crosses the Rio Les Espones, leave one car on the open space on the right.
Continue with the other car up to Mont-Ros, turn left at the crossroads before the village, the road leads to the upper edge of the village. Continue left (northwest) and park the car before the next right-hand bend.

Avvicinamento: (traduzione alternativa)
In the mentioned bend, go up on a barely recognizable dirt road, later across meadows in a northerly direction until you reach a barn. Pass it on the right, continue to a path that crosses the slope over a water pipe (not visible) and climbs steadily towards the streambed (approx. 300 m). The path turns slightly to the right. Before it starts to climb a little more, go down to the left to the streambed of the Espones.

Giro: (traduzione alternativa)
Only a few small rappels, but some tricky downclimbs when there is a good flow of water.

Ritorno: (traduzione alternativa)
At the small dam on the left directly to the road.

Coordinate:
Inizio del canyon 42.4115 0.9902
Fine del canyon 42.4073 0.9807
Parcheggio all'entrata 42.4049 0.9870
Parcheggio in uscita 42.4070 0.9801

Beautiful but slippery canyon. Bolting all good, be careful on the downclimbs, not every pool is deep enough.

Automatisch importiert von Descente-Canyon.com für Canyon Espones Parcouru de la partie supérieure (bouse forestière) à la sortie du Salt de la Palanca. Ultra glissant, progression très très pénible d'autant que beaucoup de ressauts ne sont pas équipés et qu'on ne trouve pas toujours d'AN correct... Inintéressant dans ces conditions ! (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/21708/observations.html)
