Accesso: (traduzione alternativa)
In Tolmezzo, head towards the village of Illegio. There is a prominent and popular climbing wall on the left and a gravel road on the right just before it. Pass the chapel and park in the large parking lot of the shooting range.

Avvicinamento: (traduzione alternativa)
From the car either up the stream or along the shooting range in a westerly direction to the canyon. A well-trodden path (orographic left, marked in Openmaps) with markings always goes up along the canyon. We roped down twice at a prominent bend in the path at an altitude of 740 meters. There are many trees and the path is always steep, along the meadows into the stream. The Italian description goes further up and then into the stream. See next paragraph.

Info 2: from InfoCanyon by AIC, (Italian / German translation).
Follow the dirt road that leads to the shooting range shortly after the shooting ranges. Then follow a path that leads to the stream on the right and then into the forest (red markings). Follow the steep path, turn right at a crossroads and ascend in steep serpentines to an altitude of 914 m. There the path drops slightly and crosses a dry basin (approx. 1 hour). The descent from the watershed must be done carefully, also using the ropes on natural climbing aids to reach the riverbed of our route at an altitude of 733 meters (approx. 40 feet).
