<b>Avvicinamento:</b> (traduzione alternativa) To the Fer inferiore: A path leads directly from the car in a steep NW direction down to the stream. We take the path where the slope crosses the stream.

Automatisch importiert von Descente-Canyon.com für Canyon Fer Fait la partie aval. Equipement correct et hors actif qui permet d'éviter le jus. Certaines vasques sont bien profondes pour sauter mais être sûr de ses appuis parce que c'est très très glissant! Navette plutôt longue... Automatisch importiert von Descente-Canyon.com für Canyon Fer Chemin bien raide pour attaquer l'aventure. Tous les points sont nickel. Passage sur capable un peu technique mais largement passable. Une main courante sur la C10 un peu chaude, ça glissotte gentiment. Mais prévoir plus de rappels qu'annoncé, ils disent 9 mais en vrai on en fait une grosse dizaine. Automatisch importiert von Descente-Canyon.com für Canyon Fer fait que la partie basse en prenant le chemin raide qui part à droite du pylône électrique - à l'arrivée dans le canyon, MC droite (ne pas descendre dans l'eau) et rappel - belle vasque finale avant le captage (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2953/observations.html>)

Bel canyon in poco discontinuo ma con belle vasche, ambiente verdeggiante in una valle selvaggia. Qualche sosta non proprio al massimo delle condizioni

Is just a little slippery and some bolts would have to be replaced times (traduzione alternativa)

Fer is certainly a beautiful canyon, but in my opinion it is generally overrated. There are more rewarding canyons in the Aosta Valley. Video of the tour: [https://www.youtube.com/watch?v=IP\\_nWFWfviA](https://www.youtube.com/watch?v=IP_nWFWfviA) (traduzione alternativa)
