Sintesi: (traduzione alternativa)
An open-air hike with a great view of Lake Oeschinensee. Two short, scenic sections through gorges along the trail to the Blüemlisal Hut.

Idrologia:

Accesso: (traduzione alternativa)
Approach to Kandersteg. Park there at the cable car (from 6h CHF8.-Stand 2024)

Avvicinamento: (traduzione alternativa)
Option 1: All on foot; up to the Oeschinensee; there follow the hiking trail; cross the Wyssbach; then cross the Bärglibach at the lower/upper section. In a sharp right turn before the Oberbärgli huts, the path leads directly into the stream (about 2h 30min).
Option 2 : Take the cable car, descend from the mountain station to the lake and follow the hiking trail as described above (approx. 70min) ascent 24 CHF as of 2024.

Giro: (traduzione alternativa)
The upper section begins with a series of 7 waterfalls up to 42 meters high, with plenty of water and some sharp edges. There are about 5 minutes of walking passages between the upper and lower sections. The lower, more aquatic section has an exit with a fantastic view of Lake Oeschinen.
The final rappel down to the lake is about 55 meters.

The longer rappels may be split into shorter sections (??)

Ritorno: (traduzione alternativa)
Continue to the lake and follow a path along the shore; partly in the water, partly secured by ropes until you reach the hiking trail again after about 20 minutes. Follow this down to the parking lot (approx. 45 min)

Everything's fine... Water level: high at the top, low to normal at the bottom (traduzione alternativa)

Climbed after a cold snap and snowfall. The superiore section was bone-dry. On the C42, the RD (1,800 m) tributary provided plenty of fun thanks to heavy snowfall; at sub-zero temperatures on the RD wall, there were many icicles and falling ice. The route has an inferior flow, with C55 as the highlight—where you're definitely still going to get really wet. If the cable car is crowded, be sure to reserve a time slot online in advance (Öschinensee is a tourist hotspot and gets overrun even in mixed weather). For the same reason: The entry is right on the hiking trail, which gets very crowded—start climbing discreetly and finish setting up your gear in the streambed so you don't attract inexperienced, unroped adventurers and tempt them to follow you. Shortened the access with the gondola (from the mountain station 65min to the entry) The upper part is nice, the lower part is definitely much better, watery, more beautiful,... Anchors ok so far (on the first C40 the possible transfer was loose after 10m - we skipped it) (traduzione alternativa)

Automatisch importiert von Schlucht.ch für Canyon Bärgli und Oberbärgli, Wasserstand: "niedrig" Verankerungen: "nur mono-point, aber alle ok" Schöner, kleiner Bach im Berner Oberland; auf jeden Fall lohnend! Sehr schön auch der Weg zurück direkt am Seeufer entlang. (Quelle: https://schlucht.ch/schluchten-der-schweiz-liste/1234-oberbaergli-und-baergli)

Walked past while hiking at the time, looks like a good doable water level in the photo. (traduzione alternativa)
