Avvertenzas:
Risciacquo automatico
Sopra il ruscello c'è un bacino di raccolta dell'acqua che si autospurga automaticamente, quindi è consigliabile percorrere il ruscello solo alla fine dell'anno, anche se sembra fattibile alla fine dell'estate.

Specialità:
Ghiacciaio nel bacino idrografico, Diga, Afflusso,

Attrezzatura:
Corde: 2x 30m

Sintesi: (traduzione alternativa)
Saufla aval has 2 parts:c) Le Roc Coupé: Deep and narrow dark gorge d) A relatively open part at the end of the gorge.

Idrologia: (traduzione alternativa)
Special care must be taken when walking on Saufla. Check water level well for superiore and inferiore.
Many narrow passages.
Inferiore has, among other things, a lot of water supply from the sides and superiore, 2 water dams where the water is pumped. These are sometimes defective and can overflow.
When entering the superiore, check that the pools are empty.

Accesso: (traduzione alternativa)
We leave the Autoroute du Rhône between Martigny and Lake Geneva via the Saint-Triphon exit. Via Monthey we go up the valley of the Vièze to Champéry. Continue towards the cable car and Camping du Grand Paradis. After the second stream crossing (this is already the Saufla) we turn left and go directly along the stream (Route de Barme). 650m further on, we turn left onto a forest road. From here another 550m, then we park our car in the hikers' parking lot before the bridge over the Saufla.

Avvicinamento: (traduzione alternativa)
We take the path that leads south along the orographic left bank of the Saufla (Roc Coupé, Cascade de la Saufla). First relatively flat along, it then goes away from the stream and up in switchbacks. We arrive at an alp. at 1440m. Here we leave the path and continue in a southerly direction across the meadows towards the coppice. Before this we turn right and go straight down to the entry.\n \nIf we were to continue up the path from the alpine pasture, we would come directly to the entry to the lower part of the Saufla Amont (b) - cf. description Saufla Amont.

Giro: (traduzione alternativa)
In part c) mostly rappeling in the beam, no emergency exits, in part d) exits (at the beginning)

Ritorno: (traduzione alternativa)
After the last waterfall (20m) turn right out onto the trail or down the creek and get off at the footbridge.

Automatisch importiert von Descente-Canyon.com für Canyon Saufla (aval) DC pour ce canyon (DC+ à gros débit pour les normes descente-canyon habituelles). Changé la main courante vieillissante décrite dans les retours précédents (C18 RG) et doublé quelques points à gauche à droite. 3h15 dans le canyon à deux (avec changement de main courante et pose de quelques ancrages). (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22775/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Saufla Aval P3 équipement nickel P4 assez glissant j'ai donc remis deux pitons qui évite une désescalade "expo" ou d'aller plus haut chercher un arbre (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22775/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Saufla Aval Un bon DC pour les normes de saufla. 4H de descente a 3 pour l'amont + aval . Equipement ok. La main courante est vieillissante et meriterait d'etre changée. Attention certain points sont tres bien cachés ! Un peu d'arbres dans l'encaissement mais jamais genants (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22775/observations.html)

Anchorages in order. Very cold water. Superb outing (traduzione alternativa)

2025-11-14 | Bubtore | |🕮 |⚓ | 〰 Alto | 👎 Non fatto
The water level was high, and above all very milky, so we weren't sure if they were doing anything at the water intake. We went to make crêtés instead. (traduzione alternativa)

Automatisch importiert von Descente-Canyon.com für Canyon Saufla Aval La merveille Saufla 3.7 en gros débit moins ou DC Plus. On a rajouté un point le reste est ok. Très peu de glace. Pas de crampons nécessaire ni pour l approche ni pour le canyon. Golden Team Z :) Élie Geoffroy ZAC Thierry (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22775/observations.html)
