Sintesi: (traduzione alternativa) Geologically impressive short canyon with two attractive slides and the possibility of a high jump.		
Idrologia:		
Accesso: (traduzione alternativa) From Castellane on the Verdon approx. 10 km on the N 85 in a south-easterly direction to Batie (de Peyroules). Or here from Grasse on the N 85 in 45 km. Here, turn off the N 85 in a south-westerly direction and after about 1 km you will come to a no-entry sign on a dirt road. Park here. Since 2006, access has only been possible up to this designated parking lot.		
Avvicinamento: (traduzione alternativa) From the parking lot no longer continue on the slope as before, but on a signposted path to the entry (2017), where from the right the rocky slope reaches completely to the stream.		
Giro: (traduzione alternativa) The stream has eaten into sloping rock slabs, so that there is an almost cave-like atmosphere, where you can sometimes only walk bent over. 2 fun slides and possible jumps (among others after the pool of the 2nd slide on a fixed rope back up to the rock bar; the 12 m jump is already outside the constriction) make the mini-canyon attractive.		
Ritorno: (traduzione alternativa) After the canyon opens, get off to the right at a large pool, meet a path here that goes up the rocky slope and leads us to the approach path that we walk back to the car.

Automatisch importiert von Descente-Canyon.com für Canyon Haut Jabron RAS, petit débit. Rentrés dans le canyon a 17h, seuls après avoir croisés tous les groupes pendant l'approche. Toujours aussi joli, toujours aussi court. + D'infos Nico 0618522515 (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2461/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Haut Jabron PFE au début, puis DC- après une vasque où il semble y avoir une résurgence. La température de l'eau décroît brutalement, le haut de combi est apprécié. Magnifique canyon. Les 2 toboggans passent bien.
