Stagione: marzo - novembre	**Orientamento:**	**Tempo migliore:**
Valutazione: ☆ 3 (1)	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialità:

Attrezzatura:

Sintesi: (traduzione alternativa)
Slightly smaller brother of Lekime, but it does not lose entity. It has two parts, the first one more vertical and sportive, with no time to rest and with some difficult rappels in case of high flows. The second part of lesser importance but with a multitude of projections, trunks and badinas to circumvent that will not allow us to lose concentration.

Idrologia:

Accesso: (traduzione alternativa)
We will go from Saint-Jean-Pied-de-Port.
Location of the Lekime and Haraska ravines
On the D933 towards Pau, in Saint Jean de Vieux we turn right towards Irati on the D18. We will continue on the D18 and leave the Mendive turnoff to one side. We will pass by Bastida, Basaburua, etc... And we turn left towards Larralde Borda. We will take the road/track as far as we can with our return car.
We return to the D18 and continue up the port, we will pass the Chapelle d'Iraty and soon a very sharp right turn with a track that comes out to the left, we will follow it until it ends.
Another option is to park in the same place as for Lekime, for this we will pass the pass of Burdinkurutzeta and soon we will see a track on the left that goes up to some repeaters at the foot of Mendibel. We park at the end of this track.

Avvicinamento: (traduzione alternativa)
Access to Lekime and Haraska ravines
From the Mendibel parking lot:
Along the southern slope of Mendibel we climb up to the pass and head NW in search of the Lekime and Haraska watershed, once here we will only have to go down to the left towards the bottom of the valley.
From our parking lot:
Through the beech forest to the east to take a slope that will raise us to the watershed, from here we will go down to the riverbed.

Giro: (traduzione alternativa)
The first part is very aesthetic, with a lot of washed rock, bathtubs and rappels that make for a very sporty descent. A second part with less unevenness but with a multitude of skills.

Ritorno: (traduzione alternativa)
We will follow the ravine until we reach the main river, there is a small bridge to cross it and on the other side a small path that we will take to the left. We will have to be attentive because at times it gets lost. Later it becomes a track and leaves us in the parking area.

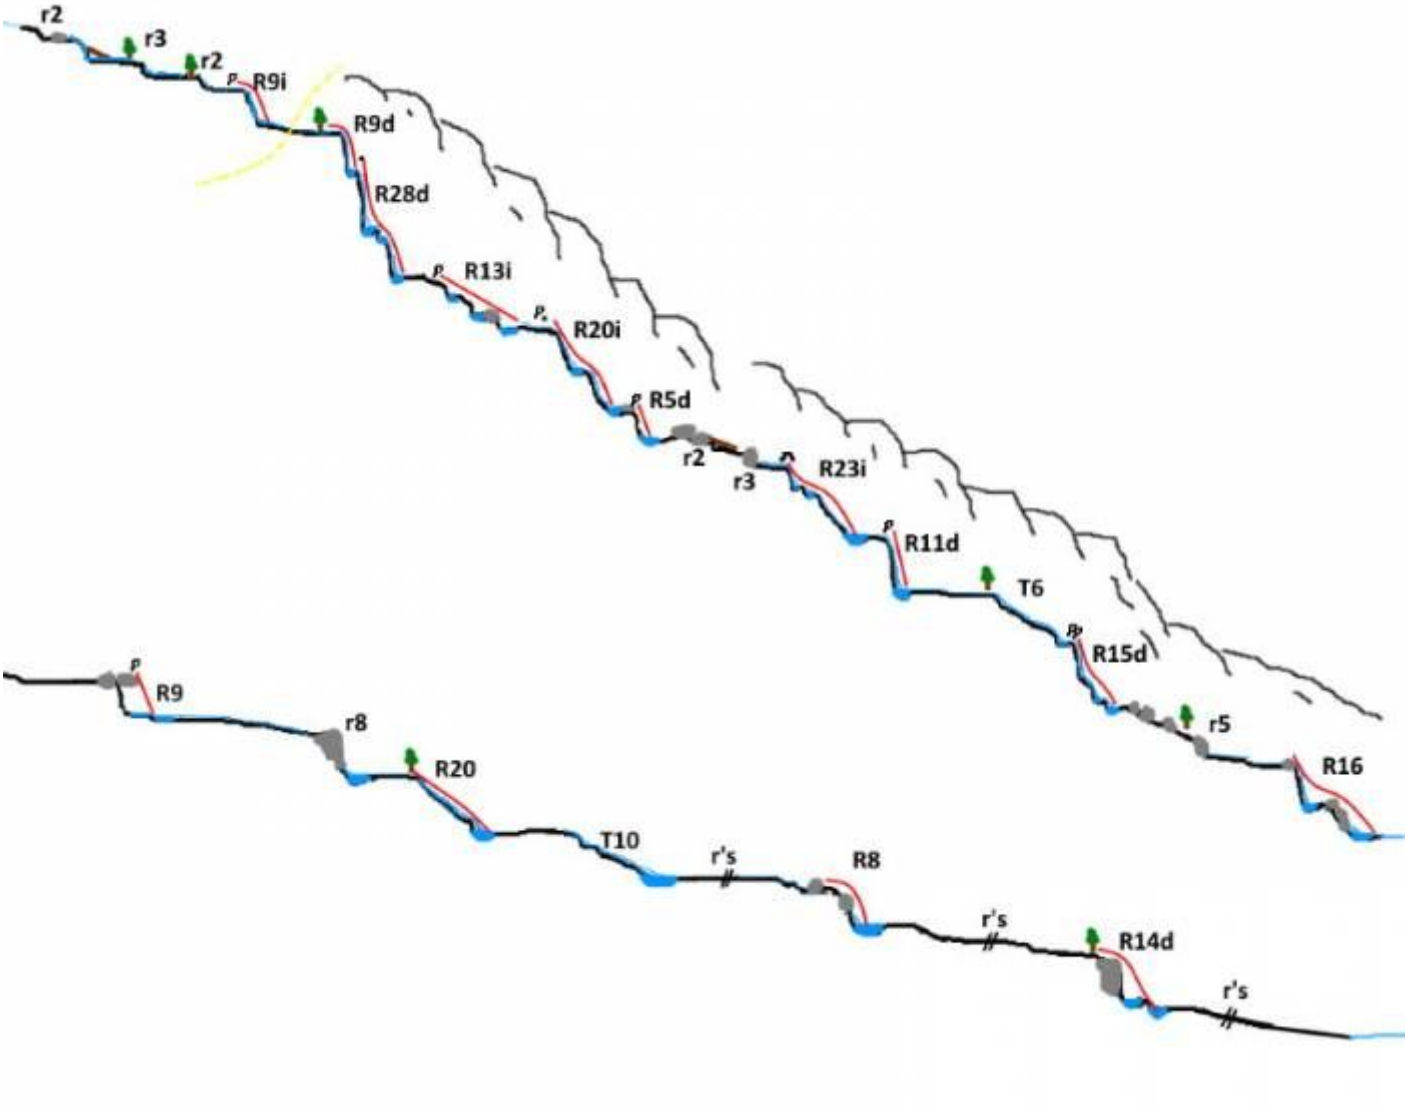

Coordinate:
Inizio del canyon 43.0720 -1.0714
Fine del canyon 43.0796 -1.0697
Parcheggio all'entrata 43.0730 -1.0787
Parcheggio in uscita 43.0899 -1.0892
