Specialità:		
Attrezzatura:		
Sintesi: (traduzione alternativa) Short canyon open and facing the sun		
Idrologia:		
Accesso: (traduzione alternativa) Leave the Italian freeway at Pontebba, cross the SS13 after the toll station and after about one kilometer you will be in the valley village of San Leopoldo, where you will find a gravel parking place directly under the freeway on the north bank of the Fella, at the eastern exit of the village.		
Avvicinamento: (traduzione alternativa) Pass under the highway onto the embankment of the cycle path. On the orographic left side of the canyon, a path begins directly from the cycle path over the bars of the slope protection. Keep right at the fork after about 40 meters. If you can't find it, try to gain height "cross-country" on the clearing of the old cable car route. At the latest on the ridge of the conquered hill you will find old canyons from which a recognizable path running northwest leads back down into the canyon. Historical background: this area was a NATO restricted military area until 2003. The cable car mountain station is clearly visible from the access path.		
Giro: (traduzione alternativa) The tour begins with a 40m rappel, followed by another 7 rappels < 25m. There are hardly any jumps or slides and you won't find any swimming sections here. Due to its southern orientation and openness, this canyon can be climbed early in the year.		
Ritorno: (traduzione alternativa) At the exit of the tour you are back under the highway and it is not 5 min back to the parked car.		
Coordinate: Inizio del canyon 46.5193 13.3553 Parcheggio Entrata e uscita 46.5108 13.3491 Fine del canyon 46.5111 13.3499

Nice, open, sunny rappel canyon. No jumps today. On the third rappel two out of four anchors are a bit loose. The other two looked OK.

Great short spring tour near us if you don't have much time. Everything was fine. Unfortunately this time the basin under the 25 was too full of gravel. (traduzione alternativa)

Beautiful open canyon, ideal in the transition period or after rainfall. We renewed the rope on the 3rd rappel. All stands ok (traduzione alternativa)

First time in this canyon and I have to say I quite liked it as a short tour. Many small pools would have been possible with jumps, sometimes the light gravel with the water depth is a bit deceptive. We played it safe and just rappelled down. As I said, the 3rd belay could do with a new one. (traduzione alternativa)

Here for the third time. I find the tour ideal on a sunny spring day (or after a lot of rain); access is not such an issue; somehow/where all paths meet again and again > just head upwards ;-) Stands so far all OK; the third stand (about 25M) could be renewed if someone has a drill with him (4 anchors, one wobbles, all connected with old tapes). Today even 2-3 jumps possible (traduzione alternativa)
