Sintesi: (traduzione alternativa)
Open rappel canyon with running trails.

Idrologia:

Accesso: (traduzione alternativa)
From Porto on the A 1/E 1 approx. 53 km southwards. At Aveira take the intersecting A 25/IP 5/E 80 in the direction of Viseu (east). About 20 km after the turn at exit 9, leave the highway in the direction of Sever de Vouga. A little later, cross the Rio Vouga and, after the bridge, take the N16 that runs along the river in an easterly direction. Pass through Paredes and continue along the river on the EM 569. 44 km after leaving the freeway, turn right onto the N 227 and enter Sao Jao da Serra. At the central square in the village, behind the church, the road to Cercal branches off. At the end of Cercal, follow the forest road for another 3 km, avoiding oncoming traffic if possible. Where the forest road, which was flat until now, begins to descend steeply, park the car.http://www.descente-canyon.com/canyoning/canyon/21603/Texeira.html

Avvicinamento: (traduzione alternativa)
From the car on the dirt road high above the Texeira level there, pass through a tunnel next to or on the concrete water intake and then left down to the river.

Giro: (traduzione alternativa)
see video and photos
meanwhile new stands with new (max.) rappel lengths, see topos

Ritorno: (traduzione alternativa)
It would be more convenient to get out of the car at the house before (shortly after the bottleneck), but this is only possible with the consent of the owners, since a gate must be unlocked for the way up to the street (in our case a polite request was successful).

Held as part of RIC Portugal 2026 in Arouca: Gabi, Rille, Elke, Michael, Wolfgang. Lots of activity, but no crowds at the booths. We were allowed to exit through the “Sekte” (?) grounds; the steel door was open. Parking was pretty much full. (traduzione alternativa)

Automatisch importiert von Descente-Canyon.com für Canyon Teixeira Équipement niquel. Le final est de toute beauté. Ne pas garer la voiture en aval du canyon la route est bien en pente et en virages .. vaut mieux la laisser à l’amont. 2km de piste d’accès en voiture. Automatisch importiert von Descente-Canyon.com für Canyon Teixeira DC- Très beau final dans l'immense vasque (saut possible aussi depuis la sortie de la vasque par une escalade RD raide mais sur de tres bonnes prises). Les cascades du haut sont sympas, mais sans plus niveau esthétique. Remonté par la colonie (pas occupée). (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/21603/observations.html)
