**Sintesi:** (traduzione alternativa)

Varied, rather easy canyon with many rather low abseils.

**Idrologia:**

**Accesso:** (traduzione alternativa)

From Morzine, take the Route des Nants in the direction of Samoëns. Park near the ski lift at the exit of Morzine.

**Avvicinamento:** (traduzione alternativa)

Cross under the road through the tunnel and follow the path to the left down into the canyon.

**Giro:** (traduzione alternativa)

Many smaller rappels. The last one is the last one with a height of approx. 22 meters.

Nice descent that merges without much downtime.

A C7 comes before a C6 and two small slides before you come to a car wreck.

After a jump of 3 meters, you cross a C9 and come to a 4-meter slide, which you climb down without ropes (after the usual precautions).

This is followed by a nice C16, followed by a second 8 m slide.

The next waterfall is a C11, from which you can also make a 3-meter jump.

Two waterfalls of 4 and 7 meters follow at once before you reach the viewpoint (C22, which leads into a large pool), where tourists gather halfway up to admire you as you descend to their applause...

**Commitment**

Throughout the descent, there are numerous escape routes in the DR.

**Period/water character**

Cold water (07° C in August).

No swimming and only a few jumps possible (4).

Often "infran" during snowmelt (check the water level at Belvedere before descending).

**Remarks**

Canyon for beginners, quite slippery.

A car wreck in the canyon at the start of the descent.

It is possible to take a 3 km shuttle bus via the D 354 (the approach is then limited to 5 min.).

**Ritorno:** (traduzione alternativa)

If you change parking spaces, it's a few minutes along the stream, otherwise take the hiking trail up to the upper parking lot.
