**Idrologia:**

**Accesso:** (traduzione alternativa)
We leave the A9 at Sion (whether exit Conthy, Sion-ovest or Sion-est) and take the road up to the Sanetsch reservoir. After a few switchbacks, we pass through Chandolin. A few meters after leaving the village, we see the church of Notre Dame des Corbelins on the left of the road. From here it is then another 1.6 km to the parking lot for the lower car, visible as such (see Google aerial photo).\n\nWith the second we continue uphill and after about 2 km cross the Morge on the Pont du Diable (905m altitude) and after another 1.6 km meet the road coming up from Erde, Daillon. On the right we would continue towards Sanetsch. We turn left here and park our car for the access 550m further on in the large parking lot on the left of the road.\n\nThe access can also be made via the orographic right slope side of the Morge (Erde, Daillon).

**Avvicinamento:** (traduzione alternativa)
The entry can be made at the road bridge; then you have to descend about 400m in the stream before it gets interesting.\nAlternatively, take the track that leads directly from the parking lot down the slope. Then, keeping to the right, we come to a rappel that drops directly to the bottom of the gorge (30m).

**Giro:** (traduzione alternativa)
At the entry at the bridge (960m altitude) first a longer run, past some car wrecks. Then 11 rappel, also jump and slides. The tour ends at the exit into the Morge.

**Ritorno:** (traduzione alternativa)
A small path leads up the left slope to the road (handrails)

Automatisch importiert von Descente-Canyon.com für Canyon Rogne Le sentier de départ est complètement recouvert par des gravats (travaux routiers). On peut partir du pont effectivement. On a préféré renoncer. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/23489/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Rogne DC-Nous n'avons pas trouvé la descente à partir du parking. Du pont, ça passe bien.On va rajouter un peu de ludique dans ce canyon:La C18 passe en toboggan àpartir de la cassure, en restant bien à droite, donc corde courte et plutôt utiliser les points de RD même si plus anciens que ceux en RG.La C8 saute. Probablement possible de l'arbre en RG ou un peu plus bas. Il faut viser car la vasque n'est pas très large mais actuellement bien profonde. Prima parte ben poco interessante, ma quando inizia la verticalità...non molla più fino al Morge. Con molta acqua acquisterebbe più difficoltà e brivido. Roccia molto diversa dal Morge nonostante la vicinanza.

Automatisch importiert von Descente-Canyon.com für Canyon Rogne Un canyon contenant énormément de déchets tout du long., c'est bien dommage.Pas de surprise dans les vasques, toutes remplie a mi hauteur d'homme. Les toboggans passe mais on fait attention au saut l'eau était trouble.La première partie ressemble plutôt à de la balade en lit de déchets c'est dans la seconde partie que le canyon prend tout son intérêt.
