Narrow passages alternate with open craggy gorge. Many, partly circular pools. Since a hiking trail comes close to the stream in some places, several emergency exits are possible. Also geologically interesting. Is also commercially guided. The rappelling points are equipped with chain anchors and numbered consecutively.

Either park the car here in the village or continue upstream along the Reichramingbach and park in the national park (note that there is a charge). Alternative access: In Unterlaussa turn off the main road in the direction of 'Knappenhaus', pass here and drive over the Mooshöhe to the parking lot in the Weisswassertal (last sand road).

Low water level but still nice vertical experience. 60m rope sufficient. 3 jumps possible,all stands in great shape, there are 2 rappels before official start which are harder to find but can be bypassed. Recommended for higher water level = more fun, our rating more like a1/a2. Canyoning fans cheering at the end on 30m waterfall. Exhibitionists will enjoy.
