Accesso: (traduzione alternativa)
Take the A-7 from Genoa in the direction of Milan to the north. Take the Ronco Scrivia exit and continue north on the country road towards Serravalle. Approx. 4 km after the exit, the road leads through a hamlet called Creverina. Shortly before the village on the left, a narrow road leads under the railroad to the stream. Park the lower car in a suitable place at the top of the road.
Continue with the second car through Creverina and after the last houses, a very narrow road leads off the main road at a steep right angle to the left in front of an old distillery. Follow this uphill and then continue straight ahead at all junctions until the road makes a sharp right turn uphill. A dirt road branches off to the left. Park the top vehicle here.

Avvicinamento: (traduzione alternativa)
The piste leads us, initially high above the stream, to the entry point at a dam with a water drain.
We can also walk a little further along the slope and enter at the waterfalls (see photo gallery).

Giro: (traduzione alternativa)
The short, narrow, meandering conglomerate gorge in the middle section with a few jumps and a 10 m toboggan makes up for the previously rather boring march through a flat streambed with a few tree-climbing sections.
Last rappel: here a sling at the top of the tree.
Clean but relatively cold water.

Ritorno: (traduzione alternativa)
About 100 meters after a last abseil into a slightly larger lake, a path on the left bank leads to the railroad underpass, where the second vehicle was parked.
