Sintesi: (traduzione alternativa) Varied tour with many pools at the beginning of the Resia Valley. Low gorges alternate with open passages. Depending on the level of gravel in the pools, higher jumps and slides are also possible.		
Idrologia:		
Accesso: (traduzione alternativa) From Resiutta in Resia Valley, turn right at the first bridge over the stream towards Povici. Drive through the small village, cross another bridge and keep right to the parking lot in front of a no-driving sign.		
Avvicinamento: (traduzione alternativa) Return a little on the road and turn left onto the marked 'Anello del Serai', CAI 743/b. Cross the Rio Resartico and on the other side ascend on a good path into a saddle and cross into the valley of the Rio Serai with some loss of altitude. After about 35 minutes, cross the stream above the last gorge, briefly follow the hiking trail on the other side to the north before turning left at a cairn onto a fairly clear hunters path (10m further on, the marked trail crosses a dry streambed). Follow the well-marked hunters path to the crossing of the Rio Broili, then continue up into the mountain forest above the low gorges of the Rio Serai. At a fork in the path, take the right-hand path. Entry at approx. 720m when you come out of the forest and can see the open streambed.
