Accesso: (traduzione alternativa)
Take the Inntal - Autobahn A 12 or the Inntal - Bundesstraße 171 to Schwaz. North of Schwaz, between the Inn River and the highway, is the Schwaz industrial park. Here you turn - coming from the A 12 - before the Inn bridge to the right and drive after a right curve the Unterinntal-Landesstraße L 215 at a traffic circle crossing under the highway to Fiecht.\nIf you come over the federal highway 171, you turn at the second traffic circle, after you have seen and passed the Inn bridge on the right, over the first exit to the right on the Münchner Strasse. You drive over the Inn and turn right at the next street to get through the industrial area to a traffic circle again. Here you take the third exit and are now on the Unterinntal-Landesstraße L 215, heading SO. Under the freeway exit/ramp you come to a traffic circle, where the first exit, under the A 12, leads to the village of Feicht.\nWith both access variants you now come to the monastery church, keeping left. The road describes a bend to the right directly in front of the monastery church and we cross the village on this ascending road, first in the direction of N, then NNW and finally W. The road continues in the direction of the village. At the T - junction we turn right and follow a narrow, steep road in the direction NW and St. Georgenberg. At a fork to the right to a castle continue left and after a few meters on a large parking lot to the left of the road park the car.

Avvicinamento: (traduzione alternativa)
From the parking lot, continue to St. Georgenberg. Cross the Stallenbach (2.2 km from the parking lot) and first along the Seiergraben, then on the wooden bridge high above the ditch to the church of St. Georgenberg (900 m above sea level). Pass the inn and the church and continue, first 150 m in a westerly direction, then in many serpentines on hiking trail no. 234 to the Plattenalm (1490 m above sea level). The dilapidated Plattenalm lies free on a sunny meadow. At the height of the Plattenalm, cross the meadow to the NE to the edge of a steep ditch. Here more or less pathless down the ditch to the Seiergraben (watch out for falling rocks!).
Access from the parking lot 700 meters in altitude, from Sankt Georgen 600 meters in altitude.

Giro: (traduzione alternativa)
The canyon is narrowly incised with high side walls. At the beginning there are long stretches of waterless scree with tree entanglements. The next part, with its narrow and steep chutes carved by the water, is more attractive. If the weather is fine and you set off from the Plattenalm at around 11:00 a.m., you will reach the bottom of the gorge together with the sun.

Ritorno: (traduzione alternativa)
Pass under the wooden bridge at St. Georgenberg and shortly afterwards turn left up to the slope on which we started.
