Specialità:		
Attrezzatura: Corde: 2x60m		
Sintesi: (traduzione alternativa) Vertical rappel canyon in a magnificent scenic setting. Looking back from the far shore of the lake, one can see an impressive series of cascades, second only in height to the Trou de Fer in Reunion.		
Idrologia:		
Accesso: (traduzione alternativa) From Fajã Grande on the west side of the island we drive in the direction of Fajãzinha or Santa Cruz Das Flores. After about 3 km (from the center of Fajã Grande) we cross the Ribeira do Ferreiro. After the bridge on the right we park the car for the exit. \With the second car we continue in the direction of Santa Cruz, after 300 m we cross the Ribeira Grande and after another 3.9 km we meet the ER 1-2. Now we continue to the left in the direction of Santa Cruz. After a little more than 2 km on the ER 1-2, we turn left from this road onto a dirt road. About 250 m further on, a dirt road goes left at a sharp angle through the bushes. Here we park our second car.		
Avvicinamento: (traduzione alternativa) We overcome the barrier and follow the dirt road in a southwesterly direction. After 210 m it turns to the north, we ignore the turnoff straight ahead. After another 300 m we are at the Ribeira do Ferreiro below a waterfall. On the left bank we go down the stream for about 50 m, then we enter the stream (if necessary with a jump after prior testing).		
Giro: (traduzione alternativa) After only 5 minutes we come to the first rappel (R1 - 45m). Now, interrupted by short walking passages, one rappel follows the other: R2 - 24m; R3 - 10m; R4 - 17m. A longer passage follows, where the stream course is covered with large boulders. \nThen we are above the big vertical - almost 110m. After the entry rappel R5 - 20m, 3 switchbacks follow, each set back a bit (danger of falling rocks) to the left: R6 - 45m; R7 - 10m; R8 - 40m. Then you swim in the large pool, which is also fed by a left side stream. In case of larger water flow, there may be difficulties here (a5). We climb the stone wall above the big pool and find a final sloping rope there: R9 - 40m.\n		
Ritorno: (traduzione alternativa) At the bottom we follow the stream to the lake Lagoa das Patas, on which we have been looking down for a long time. We swim to the left in a southeasterly direction and after about 120m we reach the far shore at the trees. The lake is quite weedy and so one should not be surprised about a corresponding "hanging" at the exit. Finally, we follow the path that leads from the lake down to the road and the parking lot.

3.5 hours with 3 persons. Some anchorpoints were loose so we tightened them. Nice waterflow at the 120m. Rappelling just next to the water. Swam across the lake, what a view! All the falls were pouring water down. Amazing sight!
