Specialità:

Attrezzatura:

Sintesi: (traduzione alternativa)
Perfect canyon for beginners with 3 waterfalls and some slides and jumps. Better to do it in spring or after rains.

Idrologia:

Accesso: (traduzione alternativa)
We arrive at Saint Girons on the D117 and before crossing the bridge over the Le Lez river, at the traffic circle we turn right onto the D618 to Mouilis (Col de Portet d'Aspet).
Here we have two options:
* We continue for about 3kms to Aubert, just before Moulis. Turn left to enter the village. We continue all the road down to the river. Park next to the Romanesque bridge.
* We continue to Mouilis and in the village we look for the ascent to Montfaucon. We continue for about 4 kms until we pass the waterfall d'Aubert (on our left). We look for a place to park near the adventure park.

Avvicinamento: (traduzione alternativa)
* From Aubert, we cross the bridge and go up the path that crosses the stream that we will descend (we can evaluate the flow). We find a channel that we pass and follow the path uphill until we pass the cascade d'Aubert. Soon a path on the right goes down to the stream.
* From Mouilis, from the adventure park, we descend to the stream.

Giro: (traduzione alternativa)
Short descent with 3 beautiful waterfalls that is best done with enough water. If you only have one thread it is better to leave it for another time because the slides and jumps are difficult to do and you will have to dexter them.

Ritorno: (traduzione alternativa)
* Towards Aubert, follow the course of the water as far as we can (the road allows us without going into private properties) and go up the road.
* Towards Moulis, go up the access road from Aubert.

Automatisch importiert von Descente-Canyon.com für Canyon Moulis Le canyon ne coulait pas malheureusement. La main courante en corde à fixe au 1er rappel mérite d’être changée. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2950/observations.html)
