Valutazione: ★ 3.4 (4)	Info: ★ 2.3 (3)	Belay: ★ 2.7 (3)
Specialità:		
Attrezzatura: Corde: 2x30m		
Sintesi: (traduzione alternativa) Rappel canyon with fun potential		
Idrologia:		
Accesso: (traduzione alternativa) Take the N 532 running parallel to the highway from Grenoble in the direction of Romans-sur-Isere to Rovon. Turn left here and take the D 35 via St. Gervais up towards Rencurel. The Canyon des Ecouges is also signposted. The road first leads up through sparse forest and finally crosses our stream on a bridge below the 65-meter drop. Park the car here.		
Avvicinamento: (traduzione alternativa) Immediately by the bridge into the stream.		
Giro: (traduzione alternativa) Highly frequented canyon, also popular after Ecouges I. Some jumps and slides. Water drainage at entry. Only permitted from May 1 to September 15. The third part (below the described exit) is generally prohibited.		
Ritorno: (traduzione alternativa) After the C 13 and the adjoining pool, a path leads out to the left (signs in the streambed), which would lead down to Le Rez in 45 minutes. However, we do not take this exit, which would require a long shuttle, but continue along the streambed for about 70 meters. There, a (mostly dry) side stream descends in the scree on the righthand side. We now walk steeply uphill in the side stream, or better still across the grassy areas on its orographic right-hand side, until we come to a path. This leads in serpentine up to a slope, which we continue up (approx. 5 min.) until we reach the tarred road. Follow this road to the right for about 400 m back to the car.		
Coordinate: Inizio del canyon 45.1793 5.4944 Fine del canyon 45.1815 5.4836 Parcheggio Entrata e uscita 45.1804 5.4893

Canyon des Ecouges

Parking partie II - Alt. 570 m

Le Canyon des Ecouges est probablement le canyon du Vercors le plus réputé, très contrasté dans son profil avec une partie 1 très engagée et une partie 2 plus ludique plus accessible.

La rivière de la Drevenne présente un bassin versant réduit qui peu être réactif en cas d'orage impliquant la prudence.

Cette rivière d'une grande richesse biologique est aussi un lieu fréquenté par les pêcheurs, les chasseurs, les propriétaires chacun participant à son entretien et sa gestion.

L'organisation de ce site fait l'objet d'une concertation avec les acteurs concernés, à laquelle vous pouvez participer en respectant les recommandations indiquées sur ce panneau.
