Specialità:		
Attrezzatura: Corde: 2x60		
Sintesi: Speleocanyoning		
Idrologia: Relative small water catchment area, water levels can be checked at the exit, touristic cave entrance and in the upper canyon (40 aniversario)		
Accesso: Valporquero, take first road left (sign for Atalaya), large parking.		
Avvicinamento: From parking Atalaya, head east on a rocky trail to the gated entrance (2025: no key needed).		
Giro: Many fixed ropes (often 3 lines, it gets busy in high season), but a few abseils still have to be installed. The most impressive one is the 3rd one, which is overhanging and dropping into a room with beautiful formations (25-30m). The bigger abseils can be broken down to 30-ish meters or done in one go with 50/60m ropes. Two more splashy abseils outside, followed by a river crossing or flying fox (tyrolienne). In high season: count more time and dress warm for possible waiting times.		
Ritorno: After the 2 abseils in open air, cross the main stream (if low water) or use the Flying Fox a little downstream.

2025-03-05 Jeroen Kirchner ★★★★★ 📖 ★★ 🪚 ★★★ 🌊 Alto 🍌 Completato Done after canyon 40 aniversario. High flow but possible thanks to local guide. Luckily i visited the touristic cave as well, bcs the beauty of it is obviously more impressive (lights, deco...) than the traverse. All alone in both the cave, canyon and traverse.
